## 1 GENERAL OVERVIEW ON THE COMPANY AND ITS ACTIVITY

MAPFRE MUTUALIDAD de Seguros y Reaseguros a Prima Fija (hereinafter "Mutualidad" or "MAPFRE MUTUALIDAD") is an insurance mutual company, specialising in the Motor line, and parent of a number of subsidiaries engaged in insurance, finance, and securities and real estate investment activities.

The scope of activity of Mutualidad and its subsidiaries (hereinafter, the Group) includes Spain, European Economic Area countries, and other countries.

Mutualidad was incorporated in Spain and its corporate domicile is located in Carretera de Pozuelo a Majadahonda no. 52, 28220 Majadahonda (Madrid).

In Spain, SISTEMA MAPFRE is structured as follows:

### A) CENTRAL SERVICES

These concentrate the technical and administrative functions of insurance management, the creation of new products, the preparation and development of marketing campaigns, as well as the provision of new commercial distribution networks for territorial offices.

### B) MAPFRE NETWORK

The extensive and growing territorial network of SISTEMA MAPFRE (MAPFRE NETWORK) is divided into forty geographical divisions known as sub-centrals, from which the marketing, operational and administrative activities are coordinated and promoted.

The MAPFRE NETWORK consists of the following:

- Direct Offices: these are serviced by staff from MAPFRE MUTUALIDAD and its subsidiaries, and essentially carry out marketing tasks, issuance of policies, attention to the public, and support to the agents' network.
- Delegate Offices: they are SISTEMA MAPFRE offices serviced by a fully captive agent; their work focuses virtually on the sale of MAPFRE MUTUALIDAD's and its subsidiaries' products.
- Agents: SISTEMA MAPFRE has a high number of commission agents, who act as brokers in the writing of transactions by virtue of cooperation agreements. Irrespectively of this, SISTEMA MAPFRE holds relationships with a large number of Insurance Brokers who contribute transactions, and also distributes through the branch offices of CAJA MADRID, a major Spanish credit institution, with which it has a corporate alliance in place.

The subsidiaries have adapted their internal structure and distribution systems to the peculiarities of the markets where they are active.

The consolidated annual accounts have been issued by the Board of Directors on 7 February 2006. They are expected to be approved by the General Shareholders Meeting. The Spanish regulations envisage the possibility of modifying the annual accounts in the event they were not approved by the said governance body, albeit such a situation has never arisen in the life of Mutualidad.

### 2.1. BASES OF PRESENTATION

The Group's consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) in force on the closing date as adopted by the European Union, with all companies having carried out the required standardisation adjustments.

The consolidated financial statements have been prepared under the historical cost convention, except for available-for-sale financial assets for trading financial assets and for derivative financial instruments, which have been recorded at fair value.

The Group has decided to capitalise the interest costs being directly attributable to the acquisition of qualifying assets, therefore they form part of the cost of the said assets.

In the preparation of its consolidated financial statements, the Group has adopted the IFRS for the first time in financial year 2005, with the date of transition being 1 January 2004. Its latest consolidated financial statements under the former accounting principles were those corresponding to the financial year closed as of 31 December 2004.

The accounting policies applied on the date of transition comply with each one of the IFRS in force on the date of presentation of these financial statements, except for the following exceptions, expressly provided for under IFRS 1, which have been adopted by the Group:

- The initial cost has been considered to be the restated value of those property, plant and equipment and investment property elements that had been restated pursuant to the legal provisions applicable in the respective countries.
- IFRS 3 has not been retroactively applied to the business combinations carried out before the date of transition.
- All actuarial gains and losses in remuneration to employees accumulated on the date of transition to the IFRS have been recognised.
- Accumulated translation differences of all businesses abroad on the date of transition have been considered as null.
- Financial instruments held in the portfolio on the date of transition have been classified as "Trading Portfolio" and "Portfolio available for sale" on the said date and not at the time of initial recognition.

The reconciliation between equity presented under the accounting principles and criteria laid down in the Insurance Entities Accountancy Plan (PCEA) and equity presented under IFRS as at 1 January 2004 and 31 December 2004 is as follows:

## Reconciliation as at 1 January 2004

<b>Under IFRS</b>		<b>847.31</b>	<b>(227.84)</b>	<b>(214.81)</b>	<b>404.66</b>

Figures in million euros

- a)** Under IFRS, incorporation and start-up expenses must be recorded as expense in the year, and capital increase expenses must be deducted from equity, therefore, the restated book value of the said expenses, which amounted to € 11.16 million as at 1 January 2004 under the former PCEA criteria, has been cancelled, net of the tax effect, against equity. The amounts corresponding both to the capitalisation of incorporation and start-up expenses carried out during 2004, and the allocation to results for the amortisation carried out under PCEA rules, amounting to € 5.73 million, have been cancelled, net of the tax effect, against results for the said financial year.
- b)** Under IFRS, goodwill is not amortised on a regular basis, opposite to the provisions of the Spanish accounting regulations. The amount corresponding to amortisation increases the net result for 2004 by € 9.01 million.
- Likewise, the IFRS require carrying out a test, on an annual basis, in order to verify whether losses have occurred due to impairment of the goodwill. From the said test, a loss arises of € 10.09 million, which was already recognised as at 31 December 2004 under PCEA criteria.
- c)** Under the Spanish accounting regulations, financial assets available for sale are stated at cost, while under IFRS the mentioned assets must be recorded at fair value. The difference between both valuations amounts to € 943.60 million and € 1,790.23 million as at 1 January 2004 and 31 December 2004, respectively, and it is stated net of the tax effect under "Valuation Adjustment Reserves", having deducted the amount corresponding to minority interests.
- d)** Under IFRS, embedded derivatives are accounted for at fair value, while under the local regulations in force in Spain they are valued at cost. The difference between both valuations, net of the tax effect, is included under "Valuation Adjustment Reserves", amounting to € 7.12

million and € 12.60 million as at 1 January 2004 and 31 December 2004, respectively. The difference between both amounts, net of the tax effect, has lowered the results for 2004.

- e) IFRS do not allow recognising as a liability, in an insurer's financial statements, a provision for any future claims if these claims arise from insurance contracts not existing on the date of presentation of the financial statements. The stabilisation and catastrophe provisions recorded pursuant to the Spanish accounting regulations amount to € 216.08 million as at 1 January 2004 and have been eliminated, increasing equity. The amounts allocated and applied during 2004 have been eliminated net of the tax effect, with the result for the said financial year increasing by € 63.10 million before tax.
- f) Pursuant to the local regulations in force in Spain and other countries where the Group operates, there is a transitional period to adapt to the new survival and mortality tables in the event that those used in the calculation of mathematical reserves are older than 20 years. IFRS do not contemplate transitional adaptation periods, but lay down the obligation of assessing, on each one of the dates of presentation of financial information, whether liabilities arising from insurance contracts recognised in the financial statements are sufficient to honour future obligations. The increase in the mathematical reserve recorded as a consequence of the assessment of adequacy of technical provisions, net of the tax effect, amounts to € 14.02 million as at 1 January 2004. The amount taken to results in 2004 as a consequence of the application of the transitional regime pursuant to the local regulations, as well as the effect of the cancellation of policies, amount to € 2.24 million, net of the tax effect, and therefore the results for the said year have been adjusted by the mentioned amount under IFRS.
- g) As a result of the valuation at fair value of assets earmarked to technical provisions and of the application of tacit accountancy, the valuation of mathematical reserves has been adjusted as at 1 January 2004 and 31 December 2004 by € 750.21 million and € 1,339.21 million, respectively.
- h) In accordance with Spanish regulations, the death provision must be calculated on an actuarial basis with methods similar to those for life insurance; however, and transitionally for portfolios existing prior to the enforcement of the Regulations on Disposition and Supervision of Private Insurance (ROSSP), the said provision is calculated by multiplying the premiums accrued in the financial year by 7.5%. The said provision is cumulative and is allocated until reaching the limit of 150% of premiums accrued in the last financial year closed. IFRS do not contemplate adaptation periods, but lay down insurers' obligation of assessing, on each one of the dates of presentation of financial information, whether liabilities arising from insurance contracts recognised in the financial statements are sufficient to honour future obligations. The increase in the death provision recorded as a consequence of the assessment of adequacy of the said provision, net of the tax effect, amounts to € 7.66 million as at 1 January 2004. The amount expensed in 2004 as a consequence of the application of the transitional regime pursuant to the application of the mentioned percentage and the cancellation of policies, is € 1.25 million, net of the tax effect, having been eliminated from results for the said financial year to IFRS effects.

- i)** Pursuant to Spanish accounting regulations, prepaid taxes may be recorded only when their recovery is clearly ensured, this being considered not to be likely when it may take place after the lapse of 10 years or in the case of entities usually registering losses. IFRS provide for prepaid taxes to be recognised to the extent the entity is likely to count on future tax gains against which to offset temporary differences, without any time limit.

As at 1 January 2004, prepaid taxes recognised under IFRS and not recognised under the Spanish accounting regulations amount to € 60.46 million, amount by which the Group's equity has been increased.

**j) Deferred income**

**J.1) EXCHANGE DIFFERENCES**

Under IFRS, the unrealised exchange differences in all monetary items must be recognised as revenues or expenses of the year when they arise. However, under the Spanish accounting regulations, unrealised positive exchange differences must be recognised as deferred income until the cancellation of the item having generated them, except the cash related ones, which have the same treatment as under IFRS. The unrealised amount of positive exchange differences in non cash items, which amounted to € 8.47 million as at 1 January 2004 under Spanish accounting principles and criteria, has been considered, net of the tax effect, as a greater amount of equity under IFRS. The amounts corresponding both to capitalisation of new unrealised differences and the allocation to results of amounts recognised as deferred income, carried out during 2004, and which amount to € 2.15 million, have been cancelled, net of the tax effect, with the subsequent increase in the results for the said financial year.

**J.2) NEGATIVE CONSOLIDATION DIFFERENCES**

Pursuant to Spanish accounting regulations, the negative difference arising from comparing the book value of the investment with the pro rata portion of the equity of the subsidiary or associated undertaking on the date of acquisition of the investment, provided that the said difference is not subject to allocation, totally or partially, to equity elements, is recorded under the liabilities, whether it relates to a provision for risks and expenses or has the nature of deferred income.

Under IFRS, negative goodwill cannot be recognised; therefore, as at 1 January 2004, it has been cancelled against equity, net of the tax effect.

- k)** The accumulated translation differences of all businesses abroad on the date of transition have been considered as null, therefore the balance of this account as at 1 January 2004 under PCEA has been classified under IFRS to reserves accounts.

The consolidated annual accounts for 2004 prepared pursuant to the PCEA presented a consolidated cash flow statement. On the other hand, the present financial statements prepared under IFRS also present a cash flow statement. Both sets of statements have been prepared under different criteria, therefore they are not comparable, and it is not possible to effect reconciliation between them.

## 2.2. ERRORS

No errors have been detected in the financial statements of previous years.

### 2.3. COMPARISON OF INFORMATION

There are no reasons preventing the comparison of the balances and amounts of this financial year as they appear in the financial statements with those of the preceding year, since the latter have been recalculated on the basis of the same criteria, rules and assumptions.

Mutualidad has decided to adopt IAS 39 and IFRS 4 from the date of transition (1 January 2004). On the other hand, certain rules that had been approved by the European Commission have not been adopted in advance when they were not in force on the closing date of financial year 2005, in particular the changes made in IAS 32 and IAS 39 approved by Regulations 1864/2005 of the Commission, as well as those introduced by Regulations 108/2006 of the Commission, validating IFRS 7, which, in both cases, basically affect the information and breakdowns of financial instruments.

### 2.4. CHANGES IN THE CONSOLIDATION PERIMETER

Appendix 1 identifies the companies that were incorporated into the consolidation perimeter in 2004 and 2005, together with details on their equity and results. In addition, appendix 1 provides a detail of other changes occurred in the consolidation perimeter.

The overall effect of these changes on the consolidatable group's equity, financial situation and results in 2004 and 2005 with respect to the preceding year is described in the notes to the corresponding financial statements.

### 2.5. ACCOUNTING JUDGEMENTS AND ESTIMATES

In the preparation of the consolidated financial statements under IFRS, the controlling Company's Board of Directors has made judgements and estimates based on assumptions on the future and on uncertainties that basically refer to:

- Losses from impairment of certain assets.
- The actuarial calculation of liabilities and post-employment remuneration related commitments.
- The useful life of intangible assets and of tangible fixed asset elements.
- The fair value of certain unlisted assets.

Estimates and assumptions used are regularly reviewed and are based on the historical experience and other factors that may have been considered as more reasonable from time to time. If a change in the estimates took place in a give period, as a consequence of these reviews, its effect would apply to that period and, if applicable, to successive periods.

## 3 CONSOLIDATION

### 3.1. SUBSIDIARIES, ASSOCIATED UNDERTAKINGS AND JOINT VENTURES

Subsidiaries, associated undertakings and joint ventures included in the consolidation are identified and their details given in the table of shareholdings forming an integral part of these notes to the financial statements as Appendix 1. The said appendix provides a breakdown of the joint ventures included by the proportionate consolidation method.

The configuration of companies as subsidiaries is determined by Mutualidad holding a majority of the voting rights, directly or through subsidiaries, or, even if not holding half of the said rights, if Mutualidad is able to manage the said companies' financial and operating policies in order to obtain profits from their activities. Subsidiaries are consolidated from the date when the Group acquires control, and are excluded from the consolidation on the date when it ceases in such control; therefore, the results relating to the part of the financial year while the said entities belong to the Group are included in the financial statements.

Associated undertakings are those where Mutualidad exercises a significant influence, albeit they are neither controlled companies nor joint ventures.

Significant influence means the power of intervening in the investee company's decisions on financial and operating policies, however without achieving control or joint control over the said policies. A significant influence is assumed to be exercised when the Company holds, either directly or indirectly through its controlled companies, at least 20% of the investee company's voting rights.

Shareholdings in associated undertakings are consolidated by the equity method, including within the value of the shareholding the net goodwill identified on the acquisition date.

When the Group's participation in the losses of an associated undertaking is equal to or higher than the book value of its stake, including any unsecured receivable, the Group does not register additional losses, unless liabilities have been incurred or payments have been made on behalf of the associated undertaking.

In order to determine if an investee is a subsidiary or associated undertaking, account has been taken of both the potential voting rights held and liable of exercise, and the call options on shares, debt instruments convertible into shares or other instruments entailing the possibility of increasing or reducing voting rights.

A joint venture is considered to exist when two or more entities undertake an economic activity subject to shared control and regulated by means of a contractual agreement.

Interests in jointly controlled companies are generally recognised in the participant's financial statements by the proportionate consolidation method.

Excluded from being considered as controlled companies, associated undertakings and joint ventures are the investments made in investment funds and similar undertakings.

The financial statements of subsidiaries, associated undertakings and joint ventures used for the consolidation are those relating to the financial year closed as at 31 December 2004 and 2005.

### 3.2. TRANSLATION OF FINANCIAL STATEMENTS OF FOREIGN COMPANIES INCLUDED IN THE CONSOLIDATION

The functional and presentation currency of SISTEMA MAPFRE is the Euro, therefore the balances and transactions of Group companies whose functional currency is not the Euro are translated into Euros at the closing exchange rate.

The exchange differences resulting from applying the above procedure, as well as those arising from translation of loans and other foreign currency instruments covering investments in foreign operations, have been recorded as a separate component of assets in the account "Translation differences", deducting the part of the said difference corresponding to Minority Shareholders.

Goodwill and fair value adjustments of assets and liabilities arising from the acquisition of Group companies whose currency is not the Euro are dealt with as assets and liabilities of foreign operations, stating them in the functional currency of the foreign undertaking and translating them at the closing exchange rate.

#### Adjustments to the opening balance

The columns of adjustments to the opening balance appearing in the various tables of this report include the changes occurred as a result of changes in the consolidation method or procedure applied, and of the application of a different exchange rate for the translation of figures corresponding to overseas subsidiaries.

Variations in the technical provisions recorded on the income statement differ from those obtained by difference in the balance sheet balances of the present and previous financial year, as a result of the application of a different exchange rate for the translation of figures in the case of overseas subsidiaries.

## 4 ACCOUNTING POLICIES

The accounting policies applied in relation to the following items are:

### 4.1. INTANGIBLE ASSETS

#### Goodwill on merger

Goodwill on merger represents the excess of the cost paid in a business combination over the fair value of the assets and liabilities identifiable on the date of acquisition of the stake.

#### Goodwill on consolidation

Goodwill on consolidation represents the excess of the cost of acquisition over the fair value of the stake in the controlled company's equity. In the case of acquisition of stakes in the controlled company from minority shareholders subsequently to the initial one, the controlling Company has decided to recognise the said excess as greater goodwill on consolidation.

#### Impairment of goodwill

After its initial recognition and allocation to a cash generating unit, its possible loss in value is assessed at least once a year. When the recoverable value of the said cash generating unit is lower than its net book value, the corresponding loss in value is immediately recognised in the income statement, and generally no loss is recognised for individual assets not having experienced any impairment.

**Other intangible assets**

- Intangible assets arising from an independent acquisition

Intangible assets acquired from third parties in a market transaction are valued at cost. If their useful life is finite they are amortised depending upon it and, if they have an indefinite useful life, impairment tests are carried out at least on an annual basis.

- Intangible assets internally generated by the company

Research expenses are recognised directly in the income statement in the year when they are incurred. Development expenses are recorded as an asset when their probability, feasibility and future recoverability may be reasonably ensured, and are carried at cost.

Capitalised development expenses are amortised over the period in which revenues or yields are expected to be obtained, without prejudice to the valuation that would be made if impairment occurred.

- Intangible assets acquired by exchange of assets

Intangible assets acquired are generally recognised at the fair value of the asset given.

**4.2. BUSINESS COMBINATIONS**

The cost for the buying entity of a business combination is the fair value of the assets provided, instruments issued and liabilities incurred or assumed on the exchange date, plus any expenses directly attributable to the combination. Assets received and liabilities and contingencies assumed in a business combination are initially recorded at their fair value on the combination date.

Goodwill represents the excess of the cost paid over the acquired percentage of the fair value of assets and liabilities on the combination date.

**4.3. PROPERTY, PLANT AND EQUIPMENT AND INVESTMENT PROPERTY**

Property, plant and equipment and investment property are carried at cost less accumulated amortisation and, if applicable, accumulated impairment losses.

Costs incurred after the purchase are recognised as an asset only when future economic profits related to them are likely to revert to the Group and the cost of the element may be accurately determined. Other repair and maintenance expenses are debited to the income statement during the financial year when they are incurred.

Property, plant and equipment and investment property are amortised on a straight-line basis on the cost of acquisition of the asset less its residual value and less the value of land, based on the following periods of useful life of the different assets:

Group of elements	Years	Annual ratio
Buildings and other structures	50-25	2%-4%
Transport elements	6.25	16%
Furniture	10	10%
Fittings	16.6-10	6%-10%
Data processing equipment	4	25%

The residual value and the useful life of the assets are reviewed and adjusted, if required, on the closing date of each financial year.

The elements of property, plant and equipment and investment property are written off when they are sold or when they are no longer likely to produce future economic profits deriving from their continued use. Gains or losses arising from the write-off are accounted for in the income statement.

#### 4.4. FINANCIAL LEASES

Leases transferring to the lessee all the risks and benefits inherent in the ownership of the leased asset are classified as financial leases. The lessee records the leased asset in its assets, at fair value or at the present value of minimum payments under the lease if this figure is lower.

Each lease payment is distributed between the liabilities and financial charges in order to arrive to a constant interest rate on the outstanding balance.

Financial costs are debited to the income statement.

Assets under financial lease are amortised during the useful life of the leased asset.

#### 4.5. FINANCIAL INVESTMENTS

##### Recognition

Financial assets traded on secondary securities markets are generally recognised on the settlement date.

##### Classification

Financial investments are classified into the following portfolios:

- Portfolio held to maturity

This category includes the securities with respect to which there is the intention and proven financial capacity to hold them until their maturity.

- Portfolio available for sale

This portfolio includes securities representing debt not falling under "Portfolio held to maturity" or "Trading portfolio" and the equity instruments of entities not being controlled, associated or jointly held businesses and which have not been included in the "Trading portfolio".

- Trading portfolio

This portfolio includes the financial assets that are originated or acquired with a view to their short-term realisation, which form part of a financial instruments portfolio being jointly identified and managed and which, according to recent experience, may give rise to short term gains.

This portfolio also includes derivative instruments not earmarked for hedging purposes and hybrid financial assets stated at fair value.

In the case of hybrid financial assets, which simultaneously include a main contract and a financial derivative, both elements are segregated and dealt with independently to the effects of their classification and valuation. Exceptionally, when the said segregation is not feasible, hybrid financial assets are accounted for at fair value.

### Valuation

On their initial recognition in the balance sheet, all financial investments forming part of the above mentioned portfolios are recognised at the fair value of the consideration delivered, plus, in the case of financial investments not being classified in the "Trading Portfolio", any dealing costs being directly attributable to their purchase.

After the initial recognition, financial investments are stated at fair value, without deducting any dealing cost that might be incurred on their sale or any other type of disposal, with the following exceptions:

- a) Financial investments included in the "Portfolio held to maturity" which are valued at their amortised cost using the effective interest rate method.

The effective interest rate is the restatement rate equalling exactly the initial value of a financial instrument to all its estimated cash flows for all concepts throughout its residual life.

- b) Financial assets that are equity instruments and whose fair value may not be accurately estimated, as well as derivatives having the said instruments as underlying asset and that are settled by delivering them, which are valued at cost.

The fair value of financial investments is the price that would be paid for them in an organised and transparent market ("Trading price" or "Market value"). When the said market value is not available, or when the price is not sufficiently representative, the fair value is determined by restating the future financial flows, including the redemption value, at rates equivalent to the average of the last month in the market for fixed income securities issued by the State and standardised according to the issuer's quality and the maturity period.

The fair value of the financial derivatives included in the "Trading portfolio" is taken to be their daily price on the list or the present value of future cash flows if the former is not available.

The book value of financial investments is adjusted against the income statement when there is objective evidence of an event having occurred that has a negative impact on its future cash flows or in the recovery of the book value. The objective evidence of the impairment is determined on an individual basis for significant debt instruments and collectively for the groups of instruments not being individually significant.

The amount of impairment losses is equal to the difference between their book value and the present value of their estimated future cash flows, but for listed instruments, where the present value of cash flows is taken to be their market value, provided this is sufficiently reliable and considering, in any case, the credit risk. The amount of estimated impairment losses is recognised in the income statement, including, in addition, any reduction in the fair value of investments previously recognised under "Valuation adjustment reserves".

In the case of financial swaps of exchange of flows, the amounts accrued by the main transactions are recognised, with the amount resulting from flows being accounted for under "Other financial liabilities" or "Corporate and other credits", as the case may be.

#### 4.6. HEDGING TRANSACTIONS

Hedging derivatives are recorded, as the case may be according to their valuation, under the heading "Other investments" or "Other financial liabilities".

Hedging derivatives are considered those that efficiently eliminate the risks of variations in fair value, alterations in cash flows or variations in the value of the net investment in businesses abroad.

Derivatives for hedging purposes are carried at fair value.

##### **Fair value hedge**

The profit or loss arising from the valuation of the hedging instrument and the covered element is recognised in the income statement, in all cases.

#### 4.7. INVESTMENTS ON ACCOUNT OF LIFE INSURANCE POLICYHOLDERS BEARING THE INVESTMENT RISK

Investments on account of policy holders bearing the investment risk are made in securities investment funds and are valued at cost or at subscription or purchase price. The said acquisition cost is adjusted as greater or lower value of the investment, as applicable, depending upon the net asset value at the closing of the financial year. Revaluations and depreciations of these assets are accounted for as a credit or debit to the income statement of the Life insurance business segment.

#### 4.8. ASSET IMPAIRMENT

At the closing of each financial year, the Group assesses if there are signs that the asset element may have suffered a loss in value. If there are such signs, the recoverable value of the asset is estimated.

In the case of assets not being in operating conditions and of intangible assets with an indefinite useful life, the estimation of the recoverable value is made irrespectively of the existence of impairment signs.

If the book value exceeds the recoverable amount, a loss is recognised for the excess, reducing the book value of the asset down to its recoverable amount.

When there is an increase in the recoverable value of an asset other than goodwill, the previously recognised impairment loss is reversed, increasing the book value of the asset up to its recoverable value. This increase never exceeds the book value net of amortisation that would be accounted for had no impairment loss been recognised in previous years. The reversal is recognised in the income statement, unless the asset has been already subject to revaluation against "Valuation adjustment reserves", in which case the reversal is treated as a revaluation increase. After this reversal, the amortisation expense is adjusted in the following periods.

#### 4.9. INVENTORIES

Inventories are valued at the lower of their acquisition or production cost and their net realisable value.

The acquisition cost includes the expenses directly attributable to the purchase, as well as an allowance for the overheads incurred for the transformation of inventories and any financial expenses incurred in their acquisition.

The net realisable value is the estimated sale price in the normal course of business, less any variable costs required for their sale.

#### 4.10. CREDITS & RECEIVABLES

Valuation of credits is generally made at the amortised cost, calculated pursuant to the effective interest rate method and deducting, if applicable, provisions for losses due to any perceived asset impairment.

In the case of credits with maturity beyond one year without the parties having expressly agreed the applicable interest rate, credits are discounted taking as implicit financial interest that in force in the market of Public Debt securities with equal or similar term to the maturity of the credits, without prejudice to taking into account the related risk premium.

When there is objective evidence that an impairment loss has been incurred, the relevant provision has been established for the amount deemed not recoverable. The said amount is equal to the difference between the book value of the asset and the present value of future cash flows, discounted at the original effective interest rate of the financial asset. The amount of the loss is recognised in the income statement of the year.

Impairment losses corresponding to outstanding premiums are calculated separately for each business line and consist of the portion of the tariff premium accrued in the financial year that is likely not to be collected, considering the experience of previous years, and taking into account the impact of reinsurance. The impairment is recognised in the income statement overall depending upon the age of outstanding premium receipts, or on an individual bases when thus required by the circumstances and the situation of the premium receipts.

Credits on recollection of losses are capitalised only when their realisation is considered as guaranteed.

#### 4.11. CASH AND BANKS

Cash and Banks consists of cash and cash equivalents.

Cash is formed by cash and sight deposits with banks.

Cash equivalents correspond to highly liquid short term investments that can be easily converted into fixed amounts of cash and are subject to insignificant risks as to change in their value, and have maturities below twenty four hours.

#### 4.12. ACCRUAL ADJUSTMENTS

The heading "Accrual adjustments" of the assets side basically include fees and other acquisition expenses corresponding to accrued premiums subject to allocation to the period between the closing date and the expiry of the hedge of the contracts, with such expenses being those actually borne in the period, with the limit established in the technical bases.

Similarly, the heading "Accrual adjustments" of the liabilities side includes the amounts of fees and other acquisition expenses of ceded reinsurance that are to be allocated in subsequent years pursuant to the coverage period of ceded policies.

#### 4.13. NON-CURRENT ASSETS HELD FOR SALE AND RELATED LIABILITIES

Assets held for sale, if applicable, are generally stated at the lower of their book value and their fair value deducting sale costs, these understood as any marginal costs directly attributable to the disposal, excluding financial costs, if applicable, and the income tax related expense.

Non-current assets classified as held for sale are not subject to amortisation.

Losses for impairment of their book value are recognised in the income statement. Similarly, when a recovery in value takes place, this is recognised in the income statement up to an amount equal to the impairment loss previously recognised.

#### 4.14. FINANCIAL LIABILITIES

In their initial recognition in the balance sheet, financial liabilities are accounted for at their fair value. After this initial recognition, all financial liabilities are valued at their amortised cost, except financial liabilities classified as hedged losses, or as accounting hedging instruments that follow the criteria and rules that are established in Note 4.6 of hedging transactions.

When financial liabilities are written off in the balance sheet, the difference between their book value and the consideration delivered is recognised in the income statement.

#### 4.15. TECHNICAL PROVISIONS

##### a) Direct insurance of companies belonging to the European Economic Area

###### PROVISION FOR UNEARNED PREMIUMS

The provision for unearned premiums is calculated on an individual policy basis and includes the tariff premium accrued in the financial year, having deducted the security surcharge.

###### PROVISION FOR RISKS IN PROGRESS

The provision for risks in progress is calculated on an individual business line basis and supplements the provision for unearned premiums for the amount not showing the valuation of risks and expenses to be covered corresponding to the coverage period not elapsed at the closing date.

For the motor business, the calculation of this provision has been made considering all the guarantees covered with the products marketed by the different companies.

###### PROVISION FOR LIFE INSURANCE

- In life insurance policies with a coverage period equal to or shorter than one year, the provision for unearned premiums is calculated on a policy by policy basis and reflects the tariff premium accrued in the year, subject to allocation to future financial years.

When this provision is not sufficient, the provision for risks in progress is calculated also in order to cover the valuation of risks and expenses to be covered, corresponding to the coverage period not elapsed at the year's closing date.

- In life insurance policies with a coverage period exceeding one year, the mathematical reserve has been calculated on a policy by policy basis as the difference between the current actuarial value of the future obligations of the controlled companies operating in this line, and those of the policy holder or insured party. The calculation basis is the inventory premium accrued in the year, represented by the pure premium plus the surcharge for administration expenses, both determined using the best estimates for mortality, illness, investment yields and administration expenses upon issuance of the contracts, as detailed in the technical bases of the relevant products and types, and remaining unchanged throughout the life of

the contract, unless their inadequacy becomes evident, in which case the calculation of the mathematical reserve would be changed.

Written policies having a profit sharing clause in force at the closing of each year share, pro rata to their mathematical reserves and as specifically laid down in each contract, in the net yields obtained by the investments earmarked to covering the said provisions. The amount of this profit sharing is recorded as a greater amount of mathematical reserves.

- This balance sheet heading also includes the provision for profit sharing and premium returns. This provision includes the amount of profits accrued in favour of policyholders, insured persons or beneficiaries and the premiums that must be reimbursed to policyholders.

#### **PROVISION FOR OUTSTANDING CLAIMS**

It represents the estimate valuation of outstanding claims deriving from occurrences prior to the closing of the financial year, deducting interim payments effected. It includes the valuations of claims pending settlement or payment and pending to be reported, as well as the internal and external expenses relating to the liquidation of losses and, in addition, it includes maturities and redemptions pending payment in the Life Insurance business. In the Spanish companies, its calculation is made including, if applicable, additional provisions for the deviation in the valuation of claims subject to long handling periods.

#### **OTHER TECHNICAL PROVISIONS**

The most significant provision included under this heading is the Death Insurance provision, which is calculated on a policy by policy basis, as the difference between the current actuarial value of future obligations of the controlled companies operating in this line and those of the policy holder or insured party.

#### **TECHNICAL PROVISIONS RELATING TO LIFE INSURANCE WHEN THE INVESTMENT RISK IS BORNE BY THE POLICY HOLDERS**

The provisions for life insurance where it has been contractually agreed that the investment risk will be fully borne by policy holders, have been calculated on a policy by policy basis, and they are valued as a function of the assets specifically earmarked to determine the value of the rights.

#### **b) Direct insurance of entities not belonging to the European Economic Area**

Technical provisions are calculated pursuant to the local criteria in force in each country, except in the cases when their application could distort the true and fair image that must be shown by the annual accounts, in which case the controlling Company's criteria have been adopted.

Life insurance provisions have been calculated using the operational assumptions, mortality tables and technical interest rate usual in the sector in the respective countries.

#### **c) Ceded reinsurance**

Technical provisions for cessions to reinsurers are shown in the balance sheet assets and are calculated according to the reinsurance agreements entered into and under the same criteria as used for direct insurance.

#### **d) Accepted reinsurance**

##### **PROVISION FOR UNEARNED PREMIUMS**

Accepted reinsurance transactions are accounted for on the basis of the accounts received from ceding companies. If, upon closing the accounts, the ceding company's latest accounts are not available, the balance of other received accounts is considered as provisions for unearned premiums of non closed accounts, in order not to recognise results in the recording of such accounts. Exceptionally, if these provisions of non closed accounts were negatively affected by the recording of major claim payments, because of their being an actual loss not subject to being offset by movements of non closed accounts, the provision is adjusted for the relevant amount.

When the latest account and report on outstanding claims are available, the cancellation is made of provisions of non closed accounts, allocating the corresponding provisions for unearned premiums as a function of the information provided by the ceding company, and accruing them on a policy by policy basis. Failing this, the amount recorded for unearned premiums is the amount of the deposit of premiums withheld on this concept and, lastly, an overall method for the accrual of premiums may be used.

Acquisition expenses, as notified by ceding companies, are accrued under the heading of "Accrual adjustments" in the balance sheet assets, with these expenses corresponding to those actually borne in the period. When ceding companies do not notify the amounts, acquisition expenses are accrued on a risk by risk basis for facultative proportional reinsurance and overall for the rest of the proportional business.

##### **PROVISION FOR RISKS IN PROGRESS**

This is calculated on an individual business line basis and supplements the provision for unearned premiums for the amount not showing the valuation of risks and expenses to be covered, corresponding to the coverage period not elapsed at the closing date.

##### **PROVISION FOR OUTSTANDING CLAIMS**

Provisions for claims are allocated for the amounts notified by the ceding company or, failing this, for withheld deposits, and include complementary provisions for claims existing and not reported, as well as for deviations in existing ones, in accordance with the company's own experience.

#### **e) Retroceded reinsurance**

Retroceded reinsurance transactions and their corresponding technical provisions are recorded following the same criteria as for accepted reinsurance and according to the retrocession agreements entered into.

#### **f) Liabilities adequacy test**

Technical provisions existing in the books are periodically submitted to a reasonability test in order to determine their adequacy on the basis of the projections of all future cash flows of existing contracts. Recorded provisions are adjusted against the results of the financial year if it becomes evident that they are inadequate, as a consequence of the test.

#### **g) Shadow accounting**

In order to mitigate the accounting asymmetries arising from applying different valuation methods for assets and liabilities, IFRS allow the so-called "shadow accounting", in such a way that unrealised losses or gains in the relevant assets are recognised in the valuation of technical provisions.

#### 4.16. OTHER ASSETS AND LIABILITIES ARISING FROM INSURANCE AND REINSURANCE CONTRACTS

##### a) Deposit components in insurance contracts

Some Life insurance contracts contain both an insurance component and a deposit component. These two components are not valued separately, since all the rights and obligations deriving from the deposit component are recognised.

##### b) Embedded derivatives in insurance contracts

Some Life insurance contracts contain embedded derivatives, whereby the value of the contract at maturity depends upon the evolution of a given stock market index. The embedded derivative is not valued separately because it meets the conditions to be classified as an insurance contract, being valued jointly with the main contract.

##### c) Insurance contracts acquired in business combinations or portfolio assignments

Insurance contracts acquired in a business combination or portfolio assignment are stated at fair value and recognised in the balance sheet as follows:

- a) the liabilities deriving from the insurance contracts are accounted for pursuant to the accounting policies used by the entity,
- b) an intangible asset is accounted for, representing the difference between:
  - the fair value of the rights acquired and the rest of assumed contractual obligations, and
  - the amount described under section a) above.

This intangible asset is amortised by the straight line method depending upon the estimated life of the contracts.

##### d) Capitalisation of acquisition fees and expenses

Acquisition fees and expenses directly related to new production sales are not capitalised in any case, being taken to the income statement in the financial year when they are incurred.

##### e) Significant assumptions and other sources of estimation of uncertainties

With respect to assets, liabilities, revenues and expenses deriving from insurance contracts, as a general rule, the assumptions that were used as basis for the issuance of the said contracts are used, as specified in the technical bases.

As regards liabilities, assumptions are based on the best possible estimate at the time of issuing the contracts. Nevertheless, the relevant provisions would be established in order to cover any proven inadequacy, should this emerge.

Generally, the company's historical experience is used as basis.

Throughout the year, no significant changes have taken place in the assumptions used to value liabilities deriving from insurance contracts.

#### 4.17. PROVISIONS FOR RISKS AND EXPENSES

Provisions are recognised when the present obligation exists as a result of a past event and a reliable estimate of the amount of the obligation may be made.

When a provision is expected to be recovered, partly or fully, the reimbursement is recognised as a separate asset.

#### 4.18. DEBT

The valuation of the items included under the heading "Debt" is generally made at amortised cost, using the effective interest rate method.

In the case of debt with maturity beyond one year, if the parties have not expressly agreed the applicable interest rate, debts are discounted taking as implicit financial interest that in force in the public debt market for securities with the same or similar term to the maturity of the debts, without prejudice to taking into account the relevant risk premium.

#### 4.19. GENERAL CRITERION ON REVENUES AND EXPENSES

The general principle applicable to the recognition of revenues and expenses is the accrual criterion, pursuant to which the allocation of revenues and expenses is made depending upon the actual flow of goods and services represented by them, irrespectively of the date of the monetary or financial flow deriving from them.

#### 4.20. REMUNERATION TO STAFF

Remuneration to staff may be short term, post-employment and termination payments.

##### a) Short term remuneration

This is recorded as a function of services provided by employees, on an accrual basis.

##### b) Post-employment remuneration

It essentially consists of defined benefit plans and defined contribution plans.

##### DEFINED BENEFIT PLANS

These are post-employment payment plans other than defined contribution plans.

The liability recognised in the balance sheet in relation to defined benefit pension plans is equal to the present value of the defined benefit obligation on the balance sheet date, deducting, if applicable, the fair value of the assets earmarked to the plan.

The obligation on defined benefit is determined separately for each plan, using the actuarial valuation method of projected credit unit.

Actuarial losses and gains arising are debited or credited to the income statement in the financial year when they take place.

##### DEFINED CONTRIBUTION PLANS

These are post-employment benefit plans, in which the entity involved makes pre-determined contributions to a separate entity (whether connected or alien to the Group) and has no legal or implicit obligation of making additional contributions, should there be an insufficiency of assets to honour the payment of benefits. Therefore, the obligation solely consists of making the contribution that is agreed to a fund, and the amount of benefits to be received by employees is determined by the contributions made plus the return obtained on the investments where the fund is materialised.

#### OTHER POST-EMPLOYMENT OBLIGATIONS

The right to this type of benefits is usually subject to the employee's permanence with the company until his/her retirement and during a required number of years. Costs expected from these benefits are accrued during employees' working life pursuant to an accounting method similar to that for defined benefit plans.

##### **c) Termination payments**

Termination payments are recognised as a liability and as an expense when there is a demonstrable intention of termination of the labour relationship before the normal retirement date to a given number of employees, or when there is an offer to encourage the voluntary termination of labour contracts.

#### 4.21. PREMIUMS

##### **Direct insurance**

Premiums from the Non Life business and Life annual renewable contracts are recognised as revenues throughout the validity of the contracts, pursuant to the period of time elapsed. The accrual of premiums is made by allocating the provision for unearned premiums. Premiums from the long term Life business, whether single premiums or regular premiums, are recognised when the right to collection arises on the part of the contract issuer.

##### **Ceded reinsurance**

Premiums corresponding to ceded reinsurance are accounted for pursuant to the written reinsurance contracts and under the same criteria as used for direct insurance.

##### **Accepted and retroceded reinsurance**

Premiums corresponding to accepted reinsurance are accounted for on the basis of the accounts received from ceding companies.

Retroceded reinsurance transactions are accounted for under the same criteria as accepted reinsurance, and pursuant to the retrocession contracts entered into.

##### **Coinsurance**

Coinsurance transactions are accounted for pursuant to the accounts received from the opening company and the participation in contracts entered into.

#### 4.22. REVENUES AND EXPENSES FROM INVESTMENTS

Revenues and expenses from investments are classified between operations and equity depending upon their origin, if they are earmarked to covering technical provisions or they materialise shareholders' equity, respectively.

Revenues and expenses from financial investments are accounted for depending upon the portfolio in which they are classified, pursuant to the following criteria:

##### **a) Trading portfolio**

Changes in fair value are directly accounted for in the income statement, differentiating the portion attributable to yields, which is recorded as interest or, if applicable, as dividends, and the portion that is recorded as realised and unrealised results.

##### **b) Portfolio held to maturity**

Changes in fair value are recognised when the financial instrument is written off in the balance sheet and in case of impairment.

#### **c) Portfolio available for sale**

Changes in fair value are recognised directly in the company's equity until the financial asset is written off, at which time they are recorded in the income statement.

In all cases, the interest from financial instruments is calculated by the effective interest rate method.

### **4.23. CLAIMS**

The estimated cost of claims, both of the Life and the Non Life business, is recognised on the date of occurrence of events, accounting for all necessary expenses to be incurred up to the settlement of the claim. For claim events occurred prior to the end of each financial year but not reported, the best estimate of their cost is recognised based on historical experience, through the provision for claims pending declaration.

Payments of claims are made against the previously recognised provision.

Claims corresponding to accepted reinsurance are accounted for on the basis of the accounts received from ceding companies.

Claims corresponding to ceded and retroceded reinsurance are accounted for as a function of the reinsurance contracts entered into, and under the same criteria as those used for direct insurance and accepted reinsurance, respectively.

### **4.24. RECLASSIFICATION OF EXPENSES BY FINAL NATURE AND ALLOCATION TO ACTIVITY SEGMENTS**

The criteria followed for the reclassification of expenses according to their final nature are mainly based on the function fulfilled by each employee, with their direct and indirect cost being distributed pursuant to the said function.

As regards expenses not directly or indirectly related to staff, individual studies are carried out, and they are allocated according to the function fulfilled by the said expenses.

The established destinations are as follows:

- Expenses to be allocated to benefits
- Expenses to be allocated to investments
- Other technical expenses
- Other non technical expenses
- Acquisition expenses
- Administration expenses
- Operating expenses from other activities

Expenses allocated to the last three items are included under the heading "Net operating expenses" in the income statement.

#### 4.25. TRANSACTIONS AND BALANCES IN FOREIGN CURRENCIES

Transactions in foreign currencies, other than in reinsurance, are translated into Euros at the exchange rate prevailing on the transaction date.

Reinsurance transactions in foreign currencies are recorded at the exchange rate established at the beginning of each quarter in the year. Later on, upon the closing of each quarter, they are all dealt with as a single transaction, translating the amount at the exchange rate prevailing on that date and recording the corresponding difference in the income statement.

At year end, existing balances denominated in foreign currencies are translated at the exchange rate of the Euro prevailing on that date, with all exchange differences being taken to the income statement, except those directly allocated to "Translation differences", which are those arising from the monetary items that form part of the net investment in a foreign operation and from the non monetary ones stated at fair value, where changes in valuation are directly recognised in equity.

#### 4.26. INCOME TAX

Income tax that is considered as an expense in the year is recorded as such in the income statement, and includes both the tax charge for the current tax and the effect corresponding to the movement of deferred tax.

For its determination, the liability method based on the balance sheet is used, according to which the relevant deferred tax assets and liabilities are recorded as may be necessary to correct the effect of temporary differences, which are the differences existing between the book value of an asset or a liability and that representing its tax valuation.

Temporary differences may be "Taxable temporary differences", which give rise to a higher amount of taxes payable in the future and which generally entail the recognition of a deferred tax liability, or "Deductible temporary differences", which give rise to a lower amount of taxes payable in the future and to the extent they may be recoverable when recording a deferred tax asset.

On the other hand, income tax related to items where modifications in valuation are directly recognised in equity are not allocated to the income statement, with the valuation changes being recorded in the said assets, net of the tax effect.

Figures in million euros

The main addition in 2004 corresponds to the goodwill originated on the acquisition of shares in MAPFRE QUAVITAE, amounting to € 8.19 million.

A breakdown is given below of the useful life and amortisation rates used for the following intangible assets, having adopted in all cases the straight-line method of amortisation.

Group of elements	Useful life (years)	Amortisation rate (annual)
Computer applications	4	25%
Rights of use of administrative concessions	57	1.75%

The amortisation of intangible assets with finite useful life has been recorded in the expenses account "Amortisation allowances".

The useful life of the following intangible assets is considered indefinite, as the said assets are expected to contribute to obtaining future revenues for the Group, indefinitely:

Element	Book value	
	31/12/2005	31/12/2004
Goodwill on consolidation	472.51	361.59
Goodwill on merger	118.74	118.74
Goodwill on portfolio acquisition	--	17.89

Figures in million euros

The following table provides detailed information on the cash generating units to which the different goodwill items are allocated, as well as their book value and, if applicable, the impairment amount over the last two years.

Concept	Cash generating unit	Financial Year 2004			Financial Year 2005			Balance 31.12.2005
		Balance 31.12.2003	Entries/ (cancellations)	Impairment in the period	Balance 31.12.2004	Entries/ (cancellations)	Impairment in the period

<b>Total intangible assets with indefinite useful life</b>		<b>--</b>	<b>--</b>	<b>--</b>	<b>--</b>	<b>--</b>	<b>--</b>	<b>--</b>

Figures in million euros

(\*) Goodwill related with acquisitions of associated undertakings is stated as a greater value of investments accounted for pursuant to the equity method.

The book value, net of any impairment, of each of the above described goodwill items is, in all cases, equal to or lower than the amount recoverable from the cash generating unit to which they are allocated, which has been determined according to its use value, calculated on the basis of cash flow projections. The discount rate applied to the said projections is based on the interest rates of the geographical market where each cash generating unit operates, which oscillates between 3.69 and 4.66, and to which a risk premium has been added depending upon the unit's type of activity. Projections corresponding to the first five years take into account growth rates of the flows based on historical experience, while for the following years constant flows are considered.

## 5.2. PROPERTY, PLANT AND EQUIPMENT AND INVESTMENT PROPERTY

### Property, plant and equipment

The following tables detail the movement of this heading in the last two years:

Fiscal year 2005

Concept	Opening balance	Adjustments to opening balance	Changes in perimeter	Additions or appropriations	Disposals, cancellations or reductions	Closing balance	Market value

Figures in million euros

The main addition in financial year 2004 arises from the incorporation of MAPFRE QUAVITAE to the consolidation perimeter.

The main cancellation in 2004 corresponds to the building of Manuel Cortina no. 2, in Madrid, amounting to € 19.49 million, which changed from own use to investment property upon the change of the registered office of MAPFRE EMPRESAS.

The fully depreciated cost of property, plant and equipment as at 31 December 2005 and 2004 amounts to € 85.22 and 83.63 million, respectively.

Impairment losses amount to € 5.18 million and € 0,34 million for financial years 2005 and 2004 respectively, and reversals amount to € 0.19 million and € 0.61 million. These amounts are recorded under the headings "Allocation to the asset impairment provision" and "Reversal of the asset impairment provision" in the income statement.

**Investment property**

The following tables detail the movement of this heading during the last two financial years:

## Financial Year 2005

Figures in million euros

The main addition in financial year 2004 was the Manuel Cortina no. 2 building in Madrid, amounting to € 19.49 million, which changed from own use to investment property.

The market value of investment property corresponds with the appraisal value determined by the Directorate General for Insurance and Pension Funds or by the authorised independent appraisal entity.

Lease revenues and expenses deriving from investment property in financial years 2005 and 2004 are detailed in the following table.

Concept	Investments of:					
	Operations		Equity		Total	
	2005	2004	2005	2004	2005	2004
Revenues from investment property						
From rentals	64.41	47.00	6.80	5.65	71.21	52.65
Gains on disposals	3.02	7.75	1.00	--	4.02	7.75
<b>Total revenues from investment property</b>	<b>67.43</b>	<b>54.75</b>	<b>7.80</b>	<b>5.65</b>	<b>75.23</b>	<b>60.40</b>
Expenses from investment property						
Direct operating expenses	37.61	37.13	4.71	4.01	42.32	41.14
Losses on disposals	--	--	--	0.02	--	0.02
<b>Total expenses from investment property</b>	<b>37.61</b>	<b>37.13</b>	<b>4.71</b>	<b>4.03</b>	<b>42.32</b>	<b>41.16</b>

Figures in million euros

The impairment loss in the year is recorded under "Allocation to the asset impairment provision" and the reversal under "Reversal of the asset impairment provision" in the income statement.

### 5.3. LEASES

The Group has the following elements subject to operational lease agreements:

Type of asset	Net book value		Maximum duration of agreements (years)		Years elapsed	
	2005	2004	2005	2004	2005	2004
	Investment property	625.54	566.71	25	25	10

Figures in million euros

As at 31 December, minimum future collections from the last two years, to be received in the concept of operational lease agreements not liable of cancellation, are as follows:

Concept	2005	2004
Below one year	19.65	19.84
Over one year but below five years	46.12	41.89
More than five years	7.02	17.73
<b>Total</b>	<b>72.79</b>	<b>79.46</b>

Figures in million euros

The Group is a lessee pursuant to operational leases of buildings and other tangible assets.

These leases have a maximum duration of 25 years, without renewal clauses provided for in the agreements. There is no restriction whatsoever for the lessee with respect to entering into these leases.

As at 31 December, minimum future payments to be made in the concept of operational lease agreements not liable of cancellation, are as follows:

Concept	2005	2004
Below one year	0.50	1.30
Over one year but below five years	0.40	2.24
More than five years	0.20	0.80
<b>Total</b>	<b>1.10</b>	<b>4.34</b>

*Figures in million euros*

Contingent payments recorded as expense in financial years 2005 and 2004 amount to € 0.44 million and € 0.35 million, respectively.

#### 5.4. FINANCIAL INVESTMENTS

As at 31 December 2005 and 2004, the breakdown of financial investments is as follows:

Concept	Book value	
	2005	2004
<b>PORTFOLIO HELD TO MATURITY</b>		
Fixed income	573.71	491.13
Other investments	225.73	296.23
<b>Total portfolio held to maturity</b>	<b>799.44</b>	<b>787.36</b>
<b>PORTFOLIO AVAILABLE FOR SALE</b>		
Equities	542.58	508.19
Fixed income	17,897.84	14,989.72
Investment funds	1,095.58	959.65
Others	112.19	729.71
<b>Total portfolio available for sale</b>	<b>19,648.19</b>	<b>17,187.27</b>
<b>TRADING PORTFOLIO</b>		
Derivatives (non hedging):		
Swaps	7.17	--
Others derivatives	--	0.23
Equities	8.97	2.13
Fixed income	1,362.75	1,095.48
Investment funds	66.05	56.42
Others	56.40	98.04
<b>Total trading portfolio</b>	<b>1,501.34</b>	<b>1,252.30</b>

*Figures in million euros*

#### Portfolio held to maturity

A breakdown is given below of investments earmarked to the portfolio held to maturity, as at 31 December 2005 and 2004.

Concept	Book value (amortised cost)		Fair value		Revenues from interests		Impairment			
	2005	2004	2005	2004	2005	2004	Recorded loss		Gains on reversal	
	2005	2004	2005	2004	2005	2004	2005	2004	2005	2004
Fixed income	573.71	491.13	577.54	498.02	45.47	36.99	(3.74)	(2.80)	--	--
Other investments	225.73	296.23	224.59	296.12	7.40	7.72	--	--	--	--
<b>Total</b>	<b>799.44</b>	<b>787.36</b>	<b>802.13</b>	<b>794.14</b>	<b>52.87</b>	<b>44.71</b>	<b>(3.74)</b>	<b>(2.80)</b>	<b>--</b>	<b>--</b>

*Figures in million euros*

### Portfolio available for sale

A breakdown is given below of investments earmarked to the portfolio available for sale, as at 31 December 2005 and 2004.

Concept	Book value (fair value)		Impairment			
			Recorded loss		Gains on reversal	
	2005	2004	2005	2004	2005	2004
Equities	542.58	508.19	(0.03)	--	0.01	--
Fixed income	17,897.84	14,989.72	--	--	0.04	--
Investment funds	1,095.58	959.65	--	--	--	--
Others	112.19	729.71	--	--	--	0.19
<b>Total</b>	<b>19,648.19</b>	<b>17,187.27</b>	<b>(0.03)</b>	<b>--</b>	<b>0.05</b>	<b>0.19</b>

Figures in million euros

Valuation adjustments in the portfolio investments amount to € 2,003.48 million and € 1,790.23 million as at 31 December 2005 and 2004, respectively, which have been recorded in equity net of the tax effect.

Transfers to the income statement of valuation adjustments of portfolio investments in previous financial years, carried out during years 2005 and 2004, amount to € 125.87 million and € 47.97 million, both net, respectively.

### Trading portfolio

Capital gains and losses of the trading portfolio are recorded in the income statement. The relevant information is included in Note 5.16 "Revenues and expenses from investments".

The fixed income investments of the trading portfolio include € 542.21 million and € 578.79 million as at 31 December 2005 and 2004, respectively, corresponding to monetary assets and government debt sold temporarily, with a non optional repurchase agreement.

### Interest rate risk

The following table details the significant information of the last two financial years in relation to the interest rate risk of financial assets:

Portfolio	Amount of asset with exposure to interest rate risk in:							
	Fair value (fixed interest rate)		Cash flow (Variable interest rate)		Not exposed to risk		Total	
	2005	2004	2005	2004	2005	2004	2005	2004
Held to maturity	682,02	748,87	--	0,02	117,42	38,47	799,44	787,36
Available for sale	17.598,77	15.227,79	824,65	543,35	1.224,77	1.416,13	19.648,19	17.187,27
Trading	1.408,78	1.175,68	10,38	5,45	82,18	71,17	1.501,34	1.252,30
<b>Total</b>	<b>19.689,57</b>	<b>17.152,34</b>	<b>835,03</b>	<b>548,82</b>	<b>1.424,37</b>	<b>1.525,77</b>	<b>21.948,97</b>	<b>19.226,93</b>

Figures in million euros

Figures in million euros

The modified duration is a reflection of the sensitivity of the value of the assets to interest rate movements, and represents the percentage variation in the fair value of the financial assets per each percentage point of variation in interest rates. For its calculation, the percentage variation of each financial asset is weighted against its market value.

### Credit risk

The following table provides significant information of the last two financial years in relation to the credit risk of fixed income securities:

Credit rating of issuers	Book value					
	Portfolio held to maturity		Portfolio available for sale		Trading portfolio	
	2005	2004	2005	2004	2005	2004

## 5.5. HEDGE TRANSACTIONS

The following table details the hedge transactions in force at the closing of the last two financial years.

Concept	Derivatives for fair value hedge					
	Book value (fair value)		Capital gains (losses) allocated to results			
			Realised		Unrealised	
	2005	2004	2005	2004	2005	2004
Swaps	19.15	24.70	3.11	5.27	(2.72)	5.60
<b>Total</b>	<b>19.15</b>	<b>24.70</b>	<b>3.11</b>	<b>5.27</b>	<b>(2.72)</b>	<b>5.60</b>

Figures in million euros

The risk covered is the interest rate in the fair value of the issue of debentures that is described in Note 5.11.

### 5.6. INVESTMENTS ON ACCOUNT OF LIFE POLICY HOLDERS BEARING THE INVESTMENT RISK

The following table shows the composition of the heading of investments on account of life policy holders bearing the investment risk as at 31 December 2005 and 2004:

Concept	Book value		Results			
			Realised		Unrealised	
	2005	2004	2005	2004	2005	2004
Investment fund units	299.70	361.14	37.35	18.09	(11.71)	0.20
<b>Total</b>	<b>299.70</b>	<b>361.14</b>	<b>37.35</b>	<b>18.09</b>	<b>(11.71)</b>	<b>0.20</b>

Figures in million euros

### 5.7. INVENTORIES

The following tables detail the movements of the heading of inventories in the last two financial years:

Financial Year 2005

Concept	Opening balance	Adjustments to opening balance	Changes in perimeter	Additions	Cancellations	Closing balance
Land	47.11	--	--	216.18	(0.25)	263.04
Finished buildings	1.52	--	--	0.06	(0.32)	1.26
Other finished products	2.56	--	--	2.34	(2.56)	2.34
Developments and works in progress	12.96	--	--	55.26	(30.21)	38.01
Ancillary material	6.79	--	--	0.35	(1.29)	5.85
<b>Total</b>	<b>70.94</b>	<b>--</b>	<b>--</b>	<b>274.19</b>	<b>(34.63)</b>	<b>310.50</b>

Figures in million euros

Additions correspond to purchases of land and developments made by MAPFRE INMUEBLES in the fulfilment of its activity.

Financial Year 2004

Concept	Opening balance	Adjustments to opening balance	Changes in perimeter	Additions	Cancellations	Closing balance
Land	57.22	--	--	2.49	(12.60)	47.11
Finished buildings	1.71	--	--	21.37	(21.56)	1.52
Other finished products	0.06	--	--	2.61	(0.11)	2.56
Developments and works in progress	12.53	--	--	32.11	(31.68)	12.96
Ancillary material	6.00	--	0.78	0.01	--	6.79
<b>Total</b>	<b>77.52</b>	<b>--</b>	<b>0.78</b>	<b>58.59</b>	<b>(65.95)</b>	<b>70.94</b>

Figures in million euros

## 5.8. CREDITS AND RECEIVABLES

The following table shows the composition of credits and receivables as at 31 December 2005 and 2004; also, it shows the impairment losses and gains on reversal of impairment recorded in financial years 2005 and 2004:

Concept	Gross amount		Impairment provision		Net balance in the balance sheet		Impairment			
	2005	2004	2005	2004	2005	2004	Recorded losses		Gains on reversal	
							2005	2004	2005	2004
Receivables on direct insurance and coinsurance transactions	1,794.64	1,482.08	(1.51)	(1.83)	1,793.13	1,480.25	--	--	0.32	0.02
Receivables on reinsurance transactions	288.22	188.75	(7.16)	(1.35)	281.06	187.40	(5.81)	(0.01)	--	0.12
Tax credits	87.71	64.56	--	--	87.71	64.56	--	--	--	--
Corporate and other credits	205.16	170.31	(1.57)	(2.92)	203.59	167.39	--	--	1.35	--
<b>Total</b>	<b>2,375.73</b>	<b>1,905.70</b>	<b>(10.24)</b>	<b>(6.10)</b>	<b>2,365.49</b>	<b>1,899.60</b>	<b>(5.81)</b>	<b>(0.01)</b>	<b>1.67</b>	<b>0.14</b>

Figures in million euros

The balances included under credits and receivables do not accrue interest and, generally, settlement is made in the following year.

## 5.9 CASH AND BANKS

During financial years 2005 and 2004, expenditure has been made in investments in Group companies, the most significant one being the acquisition in August 2005 by MAPFRE VERA CRUZ SEGURADORA of 51% in the shares with voting rights of NOSSA CAIXA SEGUROS E PREVIDÊNCIA, an unlisted company located in Brazil and specialising in Life Insurance.

The fair values of the identifiable assets and liabilities of NOSSA CAIXA SEGUROS E PREVIDÊNCIA on the date of acquisition were as follows:

Concept	100%	51%
<b>ASSETS</b>		
Intangible assets	0.06	0.03
Property, plant and equipment	0.05	0.03
Investments	19.28	9.83
Credits	0.03	0.02
<b>TOTAL ASSETS</b>	<b>19.42</b>	<b>9.91</b>
<b>LIABILITIES</b>		
Technical provisions	14.66	7.48
Debts	0.34	0.17
<b>TOTAL LIABILITIES</b>	<b>15.00</b>	<b>7.65</b>
Fair value of net assets	4.42	2.26
Goodwill		79.79
<b>Total cost</b>		<b>82.05</b>

Figures in million euros

The total acquisition cost includes costs directly attributable to the purchase amounting to € 0.53 million in the concept of fees paid to independent professionals, lawyers and financial advisers.

No disposals of investments were carried out in the year in Group companies for significant amounts.

There are no significant monetary transactions related to investment and funding activities excluded from the cash flow statements.

## 5.10. EQUITY

### Mutual Fund

The controlling Company's mutual fund as at 31 December 2005 and 2004 amounts to € 110.00 million and has been established in accordance with the regulations in force. It has been allocated in previous years against profits and reserves.

### Valuation adjustment reserves

It includes the equity reserves arising from fair value adjustments of the different assets and liabilities that, pursuant to IFRS, must be directly recorded in the equity accounts, as well as all IFRS valuation adjustments on the date of transition.

As at 31 December 2005 and 2004, costs of capital increases in subsidiaries, net of the tax effect, amounting to € 5.70 million and € 3.63 million, respectively, have been deducted from the balance of the "Valuation adjustment reserves" account.

### Restrictions on the availability of reserves

- The "Reserves" item includes Mutuality's legal reserve, amounting to € 1,281.36 million and € 1,019.34 million as at 31 December 2005 and 2004, respectively. The availability of this reserve is subject to the rules laid down in the bylaws of MAPFRE MUTUALIDAD.
- The Reserves account also includes balances from Mutuality and MAPFRE AGROPECUARIA, Mutuality de Seguros y Reaseguros a Prija Fija (which was taken over by MAPFRE MUTUALIDAD as at 1 January 2004), as well as of the subsidiaries MAPFRE SEGUROS GENERALES, MAPFRE GUANARTEME and MAPFRE EMPRESAS in the concept of Restatement Reserve Royal-Decree Act 7/1996, totalling € 8.40 million, net of minority interests. The balance of this reserve corresponds to the restatement made pursuant to the provisions of the said Royal Decree. Upon expiry of the periods established by the said Spanish regulations for checking balances, it may be used to offset losses or to increase the share capital. After ten years, the said balances may be allocated to freely available reserves.

## 5.11. FINANCIAL LIABILITIES

The detail in the last two financial years of financial liabilities grouped by maturity is as follows:

Financial Year 2005

Concept	Maturing on:						Closing balance
	2006	2007	2008	2009	2010	Beyond	
Issuance of debentures and other negotiable securities	16.27	15.70	15.14	14.58	14.04	237.85	313.58
Due to credit institutions	255.05	2.31	42.85	0.18	0.18	1.22	301.79
Other financial liabilities	101.15	123.29	213.72	189.09	--	--	627.25
<b>Total</b>	<b>372.47</b>	<b>141.30</b>	<b>271.71</b>	<b>203.85</b>	<b>14.22</b>	<b>239.07</b>	<b>1,242.62</b>

Figures in million euros

Financial Year 2004

Concept	Maturing on:						Closing balance
	2006	2007	2008	2009	2010	Beyond	
Issuance of debentures and other negotiable securities	16.31	15.79	15.23	14.66	14.07	239.89	315.95
Due to credit institutions	170.46	2.52	0.58	0.14	0.14	1.07	174.91
Other financial liabilities	116.26	59.36	123.29	213.72	189.09	--	701.72
<b>Total</b>	<b>303.03</b>	<b>77.67</b>	<b>139.10</b>	<b>228.52</b>	<b>203.30</b>	<b>240.96</b>	<b>1,192.58</b>

Figures in million euros

A breakdown is given below of financial liabilities according to the currency in which they are instrumented:

Currency	Financial Year	
	2005	2004
Euro	1,180.34	1,135.33
US Dollar	44.17	39.52
Brazilian Real	1.19	2.42
Chilean Peso	4.24	3.61
Colombian Peso	0.03	0.03
Pound Sterling	12.65	11.66
Other currencies	--	0.01
<b>Total</b>	<b>1,242.62</b>	<b>1,192.58</b>

Figures in million euros

The following table provides details on the fair value of financial liabilities:

Concept	Book value		Fair value	
	2005	2004	2005	2004
Issuance of debentures and other negotiable securities	313.58	315.95	313.58	315.95
Due to credit institutions	301.79	174.91	301.79	174.91
Other financial liabilities	627.25	701.72	627.25	701.72
<b>Total</b>	<b>1,242.62</b>	<b>1,192.58</b>	<b>1,242.62</b>	<b>1,192.58</b>

Figures in million euros

A breakdown of financial liabilities with exposure to interest rate risk is given below:

Concept	Amount of liability exposed to the interest rate risk in:							
	Fair value (Fixed interest rate)		Cash flow (Variable interest rate)		Non exposed to risk		Total	
	2005	2004	2005	2004	2005	2004	2005	2004
Issuance of debentures and other negotiable securities	313.58	315.95	--	--	--	--	313.58	315.95
Due to credit institutions	2.10	11.35	284.86	153.90	14.83	9.66	301.79	174.91
Other financial liabilities	619.86	697.87	6.44	3.81	0.95	0.04	627.25	701.72
<b>Total</b>	<b>935.54</b>	<b>1,025.17</b>	<b>291.30</b>	<b>157.71</b>	<b>15.78</b>	<b>9.70</b>	<b>1,242.62</b>	<b>1,192.58</b>

Figures in million euros

### Issuance of debentures and other negotiable securities

As at 31 December 2005 and 2004, the balance of this account includes the nominal amount of debentures issued by CORPORACIÓN MAPFRE, their most significant terms and conditions being as follows:

- Nature of the issue: simple debentures represented by book entries.
- Total amount: € 275 million
- No. of securities: 2,750
- Nominal per security: € 100,000
- Issuance date: 12 July 2001
- Term: 10 years
- Maturity: 12 July 2011
- Repayment: In a lump sum at maturity, at par, free of expenses for holders.
- Listing: Mercado AIAF de Renta Fija
- Coupon: 6.02% per annum, payable on the anniversaries of the issuance date until the final maturity date inclusive.
- Rating of issue: AA- (Standard & Poor's).

On 28 February 2002, an interest rate swap was agreed on the total amount of the issue, restructured on 23 June 2003, whereby CORPORACIÓN MAPFRE receives on an annual basis an amount equivalent to 6.02% up to the final maturity of the issue, and undertakes to pay the 6 month Euribor plus 1.62%, with the maximum limit of 6.02% per annum. This swap is accounted for at fair value under "Other Investments".

### Due to credit institutions

The amounts due to credit institutions as at 31 December 2005 and 2004 break down as follows:

Type of debt	Amount		Average interest rate		Security given	
	2005	2004	2005	2004	2005	2004
Financial leases	3.23	3.09	5.80%	5.80%	--	--
Credit facilities	221.65	160.31	2.68%	3.76%	--	--
Loans	76.86	8.54	2.54%	3.00%	33.44	7.35
Others	0.05	2.97	--	--	--	--
<b>Total</b>	<b>301.79</b>	<b>174.91</b>	<b>--</b>	<b>--</b>	<b>33.44</b>	<b>7.35</b>

Figures in million euros

### Other financial liabilities

"Other financial liabilities" include € 541.75 million and € 577.63 million as at 31 December 2005 and 2004, respectively, corresponding to temporary assignment of assets with non optional repurchase agreement.

Furthermore, "Other financial liabilities" includes the amount of other payment obligations of a financial nature, not included in other items.

## 5.12. TECHNICAL PROVISIONS

### 1. Detail of the technical provisions balance

The following table shows the composition of the balance of each one of the technical provisions recorded in the balance sheet in the last two financial years.

Concept	Direct insurance		Accepted reinsurance		Ceded and retroceded reinsurance	
	2005	2004	2005	2004	2005	2004
<b>Provisions for unearned premiums and for risks in progress Non Life</b>						
1.1. Provision for unearned premiums	2,573.59	2,183.19	511.33	398.33	629.03	500.43

### 3. Other information

#### 3.1. TECHNICAL PROVISIONS RELATING TO LIFE INSURANCE WHEN POLICY HOLDERS BEAR THE INVESTMENT RISK

Concept	Direct insurance and accepted reinsurance	
	2005	2004
<b>Provision at beginning of year</b>	<b>361.14</b>	<b>446.10</b>
Adjustments to opening balance	--	--
Incorporation to perimeter (balance of provision on incorporation date)	--	--
Premiums	21.67	21.79
Payment of claims	(106.80)	(123.21)
Gain in the valuation of assets	23.69	16.46
Loss in the valuation of assets	--	--
Recognised losses from provision adequacy test	--	--
Others	--	--
Exit from perimeter (balance of provision on exit date)	--	--
<b>Provision at year end</b>	<b>299.70</b>	<b>361.14</b>

Figures in million euros

#### 3.2. PROVISION FOR RISKS IN PROGRESS

The allocation of the provision for risks in progress has been effected by the Group's insurance companies according to the principles stated in Note 4.15.

#### 3.3. INFORMATION ON LIFE INSURANCE

The allocation of an additional provision to life insurance, due to inadequate returns, has not been necessary.

The following table shows the characteristics of the main types of Life Insurance policies marketed by Group companies in 2004 and 2005:

Type	Tables	Technical interest rate
Individual contracts, with regular premium, and with or without profit sharing	GKM 80/95	5.00%-5.57%
	GKM-95	
	GRM/F-95	
Individual contracts, with single premium, and without profit sharing	GKM-95	2.70%-4.70%
	GRM/F-95	
Collective contracts, with regular premium, with profit sharing	GKM-95	3.19%
Collective contracts, with single premium, without profit sharing	PERM/F 2000	3.45%-5.92%
	GKM-95	
	GRM/F-95	

### 3.4. EVOLUTION OF CLAIMS

The following table shows the evolution of claims for Non Life direct insurance from the year of occurrence until the closing of financial years 2005 and 2004.

Financial Year 2005				Financial Year 2004			
Year of occurrence	Concept	Cost recorded in year of occurrence	Cost incurred as at 31.12.2005	Year of occurrence	Concept	Cost recorded in year of occurrence	Cost incurred as at 31.12.2005
1999 and before	Outstanding provision	1,204.77	211.22	1998 and before	Outstanding provision	1,101.05	152.91
	Accumulated payments	1,756.93	2,661.07		Accumulated payments	1,547.19	2,468.41
	<b>Total cost</b>	<b>2,961.70</b>	<b>2,872.29</b>		<b>Total cost</b>	<b>2,648.24</b>	<b>2,621.32</b>
2000	Outstanding provision	888.19	71.30	1999	Outstanding provision	715.28	81.57
	Accumulated payments	1,349.83	2,099.93		Accumulated payments	1,255.50	1,873.48
	<b>Total cost</b>	<b>2,238.02</b>	<b>2,171.23</b>		<b>Total cost</b>	<b>1,970.78</b>	<b>1,955.05</b>

2003	Outstanding provision	1,474.77	316.27	2002	Outstanding provision	1,214.87	265.43
	Accumulated payments	2,070.40	3,099.32		Accumulated payments	1,842.08	2,704.40
	<b>Total cost</b>	<b>3,545.17</b>	<b>3,415.59</b>		<b>Total cost</b>	<b>3,056.95</b>	<b>2,969.83</b>
2004	Outstanding provision	1,595.88	652.35	2003	Outstanding provision	1,433.05	521.78
	Accumulated payments	2,290.05	3,120.03		Accumulated payments	2,073.86	2,905.21
	<b>Total cost</b>	<b>3,885.93</b>	<b>3,772.38</b>		<b>Total cost</b>	<b>3,506.91</b>	<b>3,426.99</b>
2005	Outstanding provision	2,017.45	2,017.45	2004	Outstanding provision	1,560.82	1,560.82
	Accumulated payments	2,748.59	2,748.59		Accumulated payments	2,361.92	2,361.92
	<b>Total cost</b>	<b>4,766.04</b>	<b>4,766.04</b>		<b>Total cost</b>	<b>3,922.74</b>	<b>3,922.73</b>

Figures in million euros

The percentage subject to allocation to ceded reinsurance of the claims shown in the preceding table amounts overall to 11.82% and 13.12% in financial years 2005 and 2004, respectively.

Details on the evolution of claims per year of occurrence in accepted reinsurance are not provided because, generally, ceding companies follow accounting methods different from the year of occurrence. Nevertheless, during the present financial year, MAPFRE RE has ordered a study on the adequacy of the technical provisions established at the end of year 2004. The said study has been carried out by an independent and prestigious expert firm and has revealed the adequacy of such provisions.

### 5.13. PROVISIONS FOR RISKS AND EXPENSES

The following tables detail the movements of the provisions for risks and expenses in the last two financial years.

Financial Year 2005

Concept	Opening balance	Adjustments to opening balance	Appropriations		Cancellations		Closing balance
			Allocated provisions	Increased value on discount	Applied provisions	Reverted provisions	
Provision for taxes	29.11	11.16	29.98	--	(4.16)	(2.73)	63.36
Provision for payment of liquidation treaties	18.32	0.03	14.58	--	(16.25)	--	16.68
Provisions for restructuring	17.07	--	3.23	--	(7.82)	--	12.48
Other provisions on staff related commitments	43.83	(0.08)	30.53	0.02	(36.61)	(0.04)	37.65
Other provisions	52.41	(1.45)	24.02	--	(36.80)	--	38.18
<b>Total</b>	<b>160.74</b>	<b>9.66</b>	<b>102.34</b>	<b>0.02</b>	<b>(101.64)</b>	<b>(2.77)</b>	<b>168.35</b>

Figures in million euros

Financial Year 2004

Concept	Opening balance	Adjustments to opening balance	Appropriations		Cancellations		Closing balance
			Allocated provisions	Increased value on discount	Applied provisions	Reverted provisions	
Provision for taxes	28.94	(0.41)	7.19	0.53	(7.14)	--	29.11
Provision for payment of liquidation treaties	20.41	--	16.17	--	(18.26)	--	18.32

Other provisions	53.18	(0.02)	26.49	0.01	(25.10)	(2.15)	52.41
<b>Total</b>	<b>193.65</b>	<b>(0.46)</b>	<b>85.26</b>	<b>0.72</b>	<b>(116.25)</b>	<b>(2.18)</b>	<b>160.74</b>

Figures in million euros

The provisions for risks and expenses include the estimated amounts of tax debts, payments on liquidation treaties, reversion fund, restructuring, staff incentives, and others deriving from the activities of the companies forming the Group, the settlement of which will take place over the coming years. The estimation of the allocated amount or of the timeframe when the provision will be liquidated is affected by uncertainties on the resolution of filed appeals and the evolution of other parameters. The preparation of assumptions on future events in order to determine the value of the provision has not been necessary.

### 5.14. DEPOSITS RECEIVED ON CEDED AND RETROCEDED REINSURANCE

Deposits on ceded and retroceded reinsurance represent guarantees given to reinsurers depending upon the reinsurance coverage contracts entered into according to usual business practices. The said deposits accrue interest to be paid and the average rollover period is quarterly, in general. Liquidation of the said interest is made quarterly.

## 5.15. DEBTS

The balances included in the heading of debt on direct insurance transactions and coinsurance, on reinsurance transactions, tax debt and other debts do not accrue any interest to be paid and, generally, their liquidation is carried out in the following financial year.

## 5.16. REVENUES AND EXPENSES FROM INVESTMENTS

The detail of revenues and expenses from investments for financial years 2005 and 2004 is shown below:

REVENUES FROM INVESTMENTS						
Concept	Revenues from investments				Total	
	Operations		Equity		2005	2004
	2005	2004	2005	2004

<b>Result of ceded and retroceded reinsurance</b>	<b>(59.62)</b>	<b>(284.67)</b>	<b>(18.19)</b>	<b>2.76</b>	<b>(77.81)</b>	<b>(281.91)</b>

Figures in million euros

## 5.19. FISCAL SITUATION

### Tax consolidation regime

From the 1985 financial year, part of the consolidated companies with registered office in Spain are included under Fiscal Group 9/85 to the effects of the Corporation Tax, the said group being formed by the controlling Company and its subsidiaries meeting the requirements to be subject to the said tax regime. In 2005, Fiscal Group 9/85 is formed by the following Spanish companies:

CORPORACIÓN MAPFRE, MAPFRE RE, MAPFRE INMUEBLES, DESARROLLOS URBANOS CIC, SERVICIOS INMOBILIARIOS MAPFRE, MAPFRE ASISTENCIA, IBEROASISTENCIA, VIAJES MAPFRE, IBEROASISTENCIA SERVICIOS DE TELEMARKETING, MAPFRE SOFT, CONSULTING DE SOLUCIONES Y TECNOLOGIAS SIAM and MAPFRE AMÉRICA.

Likewise, from 2002, some other consolidated companies having their registered office in Spain are included under Fiscal Group 95/02 to the effects of the Corporation Tax, the said group being formed by MAPFRE-CAJA MADRID HOLDING DE ENTIDADES ASEGURADORAS, S.A. (hereinafter "MAPFRE-CAJA MADRID HOLDING") and its subsidiaries meeting the requirements to be subject to the said tax regime. In 2005, Fiscal Group 95/02 is formed by the following companies:

MAPFRE-CAJA MADRID HOLDING, MAPFRE VIDA, MAPFRE INVERSIÓN, MAPFRE INVERSIÓN DOS, MAPFRE VIDA PENSIONES, CONSULTORA ACTUARIAL Y DE PENSIONES MAPFRE VIDA, GESTIÓN MODA SHOPPING, MIRACETI, MAPFRE SEGUROS GENERALES, MAPFRE INDUSTRIAL, GESTORA DE ACTIVOS FUNERARIOS, MULTISERVICIOS MAPFRE, SEPROVAL, MESEVAL, FINISTERRE AGENCIA CANARIA DE SEGUROS, COSEBAL, HEJEAN, AGEPAL, LISS ASSURANCE, SEGURLIS, SEGESYMED, SEPENVAL, SEFIN, MAPFRE CAUCIÓN Y CRÉDITO, MAPFRE SERVICIOS DE CAUCIÓN Y CRÉDITO, MAPFRE CAJA SALUD, CENTRO MÉDICO DE CHEQUEOS MAPFRE VIDA, IGUALSERVICIOS DE HUESCA, CENTROS MÉDICOS ISLAS CANARIAS, MAPFRE GUANARTEME, PROYECTOS Y SERVICIOS MAPFRE, MUSINI VIDA, MAPFRE AMÉRICA CAUCIÓN Y CRÉDITO, MAPFRE EMPRESAS, INTERBOLSA, SERVIFINANZAS, GESMUSINI S.G.I.I.C. and ELIPSE CANARIAS.

### Elements of expense from income tax of ongoing concerns

A detail is provided below, for financial years closed as at 31 December 2005 and 2004, of the main elements of expense from income tax of ongoing concerns and the reconciliation between the expense from income tax and the product of multiplying the accounting result by the applicable tax rate. The Group has made the reconciliation by adding reconciliations made separately using the national rates of each country.

Concept	Amount	
	2005	2004
<b>Expense arising from taxes</b>		
Result before taxes, ongoing concerns	871.99	847.31
35% of result before taxes, ongoing concerns	305.20	296.31
Tax effect of permanent differences	8.44	(23.63)
Tax effect from tax rates different from 35%	(35.78)	(40.96)
Total expense from current tax originating in the financial year	277.86	231.97
Total expense from current tax originating in previous years	16.03	(3.96)
Profits from previous periods not recognised previously due to the use of negative tax bases, deductions pending application or temporary differences	(59.93)	(0.17)
<b>Total expense from taxes of ongoing concerns</b>	<b>233.96</b>	<b>227.84</b>

*Figures in million euros*

Deductions from double taxation have not been taken into account in the table above, since they are mainly related to dividends collected from subsidiaries eliminated in the consolidation process.

### Deferred tax assets

The following tables provide a breakdown of movements for financial years 2005 and 2004 of the deferred tax assets heading, detailing their amount in relation to items directly debited or credited to equity accounts in each financial year.

Financial Year 2005

Concept	Opening balance	Adjustments to opening balance	Changes in perimeter	From:		Cancellations	Closing balance
				Results	Equity		
Valuation difference in financial investments	2.11	--	--	0.81	0.59	--	3.51
Embedded derivatives	12.06	--	--	(2.91)	--	--	9.15
Valuation difference in mathematical reserves:

Financial Year 2004

Concept	Opening balance	Adjustments to opening balance	Changes in perimeter	From:		Cancellations	Closing balance
				Results	Equity		
Valuation difference in financial investments	0.28	--	--	2.11	--	(0.28)	2.11
Embedded derivatives	9.17	--	--	2.89	--	--	12.06
Valuation difference in mathematical reserves:							
Adaptation to new tables	7.55	--	--	(1.05)	--	--	6.50
Tacit accounting	262.58	--	--	27.11	179.03	--	468.72
Valuation difference in the provision for death insurance	4.13	--	--	(2.38)	--	--	1.75
Tax credits (Deductions pending and others)	97.18	--	--	20.92	--	(32.49)	85.61
Others	61.08	2.75	--	14.65	--	(1.79)	76.69
<b>Total</b>	<b>441.97</b>	<b>2.75</b>	<b>--</b>	<b>64.25</b>	<b>179.03</b>	<b>(34.56)</b>	<b>653.44</b>

Figures in million euros

Deferred tax assets of the fully consolidated companies, as a consequence of negative tax bases pending application and of the temporary differences accumulated as at 31 December 2005 and 2004 amount to € 813.78 million and € 730.40 million, respectively. Of these amounts, € 795.52 million have been recorded in the balance sheet and in the equity or results accounts as at 31 December 2005, and € 653.44 million as at 31 December 2004. The remaining deferred tax assets accumulated as at 31 December 2005 and 2004, which amount to € 18.26 million and € 76.96 million, respectively, have not been accounted for pursuant to IFRS principles.

**Deferred tax liabilities**

The following tables show the movements of the deferred tax liabilities heading for financial years 2005 and 2004:

Financial Year 2005

Concept	Opening balance	Adjustments to opening balance	Changes in perimeter	From:		Cancellations	Closing balance
				Results	Equity		
Valuation difference in financial investments	605.91	(0.31)	--	22.87	184.52	--	812.99
Embedded derivatives	7.65	--	--	(1.93)	--	--	5.72
Stabilisation and catastrophe provision	80.88	--	--	(8.40)	--	--	72.48
Others	24.42	1.38	--	16.83	--	(10.74)	31.89
<b>Total</b>	<b>718.86</b>	<b>1.07</b>	<b>--</b>	<b>29.37</b>	<b>184.52</b>	<b>(10.74)</b>	<b>923.08</b>

Figures in million euros

Assets accounted for in relation to deferred taxes on negative tax bases pending set-off in consolidated companies correspond with negative tax bases generated as a result of unusual management events and future tax profits are likely to exist against which they may be offset.

**Tax incentives**

The detail of tax incentives in fully consolidated companies for financial years 2005 and 2004 is as follows:

Type	Amount applied in financial year		Amount pending application		Amount not recorded		Deadline for application
	2005	2004	2005	2004	2005	2004	
Deduction on double taxation	72.55	33.97	--	40.02	--	--	--
Others	1.03	9.37	0.01	0.13	--	--	2020
<b>Total</b>	<b>73.58</b>	<b>43.34</b>	<b>0.01</b>	<b>40.15</b>	<b>--</b>	<b>--</b>	

Figures in million euros

### Verification by the tax authorities

Pursuant to the legislation in force, the tax returns filed for the different taxes may not be considered as definitive until they have been inspected by the tax authorities or until the prescription period of four years has elapsed. As a result of the inspection activities completed in 1997 in some of the consolidated companies, in relation to the Corporation Tax for financial years 1989 to 1993, as well as to the remaining taxes of financial years 1991 to 1994, tax assessments were raised, signed in disagreement, for the Corporation Tax of years 1991, 1992 and 1993, due to disagreement on the qualification of certain assets acquired upon the merger by takeover of several subsidiary companies, carried out on 31 December 1992, for the materialisation of reinvestment to which the exemption of certain positive income generated in years 1990 and 1993 was subject, as well as disagreement on the deductibility of the allocation to the provision for claims pending declaration, and on withholdings on account of the Personal Income Tax, due to disagreement on the determination of the applicable withholding percentages. At year-end, MAPFRE INDUSTRIAL has made a provision for the amount of the tax assessment raised for the non deductibility of the provision for claims pending declaration. Tax liquidations deriving from the said assessments were appealed against and are pending resolution at present, except for those relating to the personal income tax, which have been admitted.

As a consequence of inspection activities relating to financial years running from 1 January 1987 to 31 December 1991, regarding the companies MAPFRE FINISTERRE and its subsidiary ORIENTE, both taken over by MAPFRE SEGUROS GENERALES, certain tax assessments were raised that were appealed against, with said appeals having been partly successful. For the portion not accepted, new tax liquidations were raised, which were again appealed against.

In 2001, inspection activities were completed in relation to Group 9/85, formed by CORPORACIÓN MAPFRE and its tax-controlled companies, for all taxes relating to financial years 1996 and 1997, as well as for the Corporation Tax of years 1994 and 1995. As a result of said inspection, tax assessments were raised, signed in disagreement, for the Corporation Tax of the years under review, due basically to disagreement on the deductibility of technical reserves, provision for depreciation of fixed assets, Tax on Insurance Premiums, discrepancy in the incorporation to the taxable base of the said tax of certain surcharges collected from insured persons, and on withholdings on account of the Personal Income Tax, due to disagreement on whether certain amounts paid in the concept of transport expenses should be subject to withholding. The said tax assessments have been appealed against, and the appeal was pending resolution at year end.

In 2001, inspection activities were completed at CAJA MADRID VIDA, a company taken over by MAPFRE VIDA pursuant to the general assignment of assets and liabilities that took place on 31 December 2001, relating to all the taxes to which said companies are subject for years 1996 and 1997, as well as to withholdings on account of returns on securities of fiscal year 1998. As a result, tax assessments were signed in disagreement in relation to withholdings on account of returns on securities of financial years 1996 to 1998 deriving from deposit administration agreements; these tax assessments were appealed against and are pending resolution, as well as the appeal brought against the tax assessment raised for the same concept and relating to financial years 1992 to 1995.

In 2003, a tax inspection took place at CAJA MADRID VIDA, a company taken over by MAPFRE VIDA, with an assessment having been signed in disagreement on the Corporation Tax of fiscal year 2000, due to a discrepancy on the fiscal allowableness of default interest on inspection assessments raised in previous years, with the liquidation deriving from the said assessment having been appealed against.

In 2005, tax assessments in disagreement have been brought against MAPFRE SEGUROS GENERALES, as the company taking over MAPFRE FINISTERRE, in relation to the Corporation Tax for years 1998 and 1999, Tax on Insurance Premiums of financial year 1999 and Personal Income Tax of years 1999, 2000 and 2001, with respect to which the relevant allegations have been made, which are pending resolution as at the end of the year.

Consequently, and excluding the above mentioned exceptions, consolidated companies have open to inspection all the taxes to which they are subject for the past four financial years. In the opinion of the consolidated companies' advisers, the likelihood of fiscal liabilities affecting significantly consolidated companies' financial position as at 31 December 2005 is remote.

## 5.20. REMUNERATION TO STAFF

### Staff expenses

The breakdown of staff expenses in the last two financial years is shown in the following table:

Concept	Amount	
	2005	2004
Short term remuneration		
Wages and salaries	527.74	426.64
Social security	124.54	132.39
Other remuneration	79.19	20.31
Post-employment benefits		
Defined contribution commitments	1.16	3.18
Defined benefit commitments	21.14	43.26
Termination payments	2.74	15.06
<b>Total</b>	<b>756.51</b>	<b>640.84</b>

Figures in million euros

### Post-employment benefits

The defined benefit plans in force are valued pursuant to the provisions detailed in the accounting policies, and are those where the benefit is determined as a function of end salaries, with a benefit paid as a for life annuity, subject to review according to the annual consumer price index (CPI) or by way of a benefit in the form of capital.

The most significant actuarial assumptions used on the closing date of financial years 2005 and 2004 are as follows:

Concept	2005	2004
DEMOGRAPHICAL ASSUMPTIONS		
Mortality tables	GKM/F-95	GKM/F-95
Survival tables	PERM/F-2000	PERM/F2000P
FINANCIAL ASSUMPTIONS		
Discount rate	3.76%	4.15%
Average annual salary increase	5%	5%
Average annual CPI	3%	3%

Obligations relating to defined benefit plans amount to € 197.39 million and € 168.08 million, respectively, as at 31 December 2005 and 2004, there being no assets earmarked to these plans as they have been fully externalised by means of a policy written with MAPFRE VIDA.

The amounts that have been recognised on this concept in the income statements of the last two financial years are as follows:

Concept	Amount	
	2005	2004
Cost of services in the year under review	22.38	29.34
Cost on interest of the obligations	6.86	6.98
Cost of past services recognised in the year	2.96	12.37
Other concepts	(11.06)	(5.43)
<b>Total expense recognised in the income statement</b>	<b>21.14</b>	<b>43.26</b>

*Figures in million euros*

The amount shown under "Other concepts" basically corresponds to actuarial losses and gains recognised in the year, or deriving from reductions and liquidations.

Likewise, the obligations corresponding to the defined benefit plans externally contracted with a linked entity, by means of a policy written with MAPFRE VIDA, amount to € 2.5 million and € 1.4 million, respectively, as at 31 December 2005 and 2004.

#### Staff numbers

The following table shows the number of employees at the end of the last two financial years, by geographical segments.

Geographical segment	Total	
	2005	2004
Spain	14,412	10,358
America	9,493	8,377
Rest of the world	1,062	1,185
<b>Average total number of employees</b>	<b>24,967</b>	<b>19,920</b>

## 5.21. NET RESULTS ON EXCHANGE DIFFERENCES

Positive exchange differences other than those arising from financial instruments measured at fair value, allocated to the income statement, amount to € 63.69 million and € 63.88 million in the 2005 and 2004 financial years, respectively.

Negative exchange differences other than those arising from financial instruments measured at fair value, allocated to the income statement, amount to € 63.54 million and € 73.25 million in the 2005 and 2004 financial years, respectively.

The reconciliation of the translation differences recognised in equity at the beginning and the end of the year, in 2005 and 2004, is shown below.

Description	Amount	
	2005	2004
Translation differences at beginning of year	(25.87)	--
Net exchange differences on translation of financial statements	68.52	(25.87)
<b>Translation differences at year end</b>	<b>42.65</b>	<b>(25.87)</b>

*Figures in million euros*

As at 31 December 2005 and 2004, net exchange differences arising from the translation into Euros of the financial statements of those Group companies whose functional currency is not the Euro are:

Company/Sub group	Geographical area	Translation differences					
		Positive		Negative		Net	
		2005	2004	2005	2004	2005	2004
Fully consolidated companies							
MAPFRE RE	Europe, America and rest of the world	9.17	--	--	(6.77)	9.17	(6.77)
MAPFRE AMÉRICA	America	19.15	--	--	(18.81)	19.15	(18.81)
MAPFRE AMÉRICA VIDA	America	5.15	--	--	(1.77)	5.15	(1.77)
OTHERS	--	9.24	1.48	(0.06)	--	9.18	1.48
<b>Total fully consolidated</b>		<b>42.71</b>	<b>1.48</b>	<b>(0.06)</b>	<b>(27.35)</b>	<b>42.65</b>	<b>(25.87)</b>

Figures in million euros

## 5.22. CONTINGENT ASSETS AND LIABILITIES

At the end of financial years 2005 and 2004 and until the preparation of the financial statements, there is no evidence of the existence of contingent assets and liabilities with significant amounts.

## 5.23. TRANSACTIONS WITH RELATED PARTIES

All transactions with related parties have been carried out in market conditions.

### Transactions with group companies

The transactions carried out between Group companies, with a null effect on results as they have been eliminated in the consolidation process, are detailed below:

Concept	Expenses		Revenues	
	2005	2004	2005	2004
Received/provided services and other expenses/revenues	211.55	158.16	215.45	123.00
Expenses/revenues from investment property	8.04	1.41	17.03	15.85
Expenses/revenues from investments and financial accounts	3.03	2.21	6.42	13.79
Dividends paid out	--	--	453.35	287.51
<b>Total</b>	<b>222.62</b>	<b>161.78</b>	<b>692.25</b>	<b>440.15</b>

Figures in million euros

### Reinsurance and coinsurance transactions

Reinsurance and coinsurance transactions carried out between companies of the consolidatable Group, eliminated in the consolidation process, are shown below:

Concept	Amount	
	2005	2004
Ceded/accepted premiums	620.57	654.47
Claims	254.40	253.81
Variation in technical provisions	112.67	110.70
Commissions	143.18	167.57
Interests on deposits	1.50	3.36

*Figures in million euros*

The following tables detail the balances with reinsurers and ceding companies, deposits established and technical provisions on reinsurance transactions with companies of the consolidatable Group, eliminated in the consolidation process:

Concept	Accepted reinsurance		Ceded reinsurance	
	2005	2004	2005	2004
Credits and debts	(64.07)	(66.28)	29.22	69.96
Deposits	220.40	124.98	(220.40)	(124.98)
Technical provisions	(528.96)	(379.74)	503.37	386.97
<b>Total</b>	<b>(372.63)</b>	<b>(321.04)</b>	<b>312.19</b>	<b>331.95</b>

*Figures in million euros*

### Remuneration of key managerial staff

The following table details the remuneration earned in the last two financial years by key managerial staff (understanding as such the members of the Board of Directors, of the Management Committee and of the Delegate Committees of Mutualidad):

Concept	Amount	
	2005	2004
Short term remuneration		
Salaries	3.95	3.35
Fixed allowances	1.42	0.92
Attendance fees	0.82	0.63
Life insurance	0.20	0.19
Other concepts	0.35	0.41
Post-employment		
Defined benefits	4.89	9.32
<b>Total</b>	<b>11.63</b>	<b>14.82</b>

*Figures in million euros*

In 2004, external directors' basic remuneration consisted of an allowance for their attendance to meetings, which amounted to € 2,152. External directors belonging to Commissions or Delegate Committees in the said financial year also received a fixed annual allowance in that concept, which amounted to € 13,985 for the Management Commission and € 10,490 for Delegate Committees.

External directors' basic remuneration consists of a fixed annual allowance for their belonging to the Board of Directors, which amounted to € 30,000 in 2005. The said amount rises by 35% for those directors fulfilling positions within the Board or chairing a Commission or Delegate Committee, there not being, however, cumulative increases when the same person fulfils more than one office. In addition, they benefit from a Life insurance policy with an insured capital of € 150,253.03, in both 2005 and 2004, and enjoy some of the benefits extended to staff, such as medical insurance.

External directors belonging to Commissions or Delegate Committees also receive an attendance allowance, which in 2005 amounted to € 3,000.

Directors fulfilling the chairmanship office in a Territorial Board receive a fixed allowance that in 2005 amounted to € 20,000 per year, and they are not entitled to receiving any allowance for their attending the said Board meetings.

Executive directors (understanding as such both the company's executives and those fulfilling executive offices in other SISTEMA MAPFRE entities) receive the remuneration established in their contracts, including fixed salary, bonuses with varying amounts linked to results, life and disability insurance, and other benefits generally established for the Entity's staff; in addition, certain pension complements have been acknowledged to them for the event of retirement, externalised through a life insurance policy, it all according to the remuneration policy established by SISTEMA MAPFRE for its senior managerial staff, whether or not they are directors.

Executive directors, however, are not entitled to the remuneration established for external directors, with the exception of the fixed allowance established for their belonging to the Management Committee of SISTEMA MAPFRE.

The basic remuneration package of external directors is approved by the General Shareholders Meeting at the proposal of the Board of Directors and pursuant to the report issued by the Nomination and Remuneration Committee of SISTEMA MAPFRE. The remuneration of executive directors, attendance fees of the external members of Commissions and Delegate Committees and the fixed allowance for the chairmanship of Territorial Boards are approved by the Board of Directors, pursuant to the report issued by the said Committee.

## 6 OTHER INFORMATION

### 6.1. RISK MANAGEMENT POLICY

#### Risk types and methodology

MAPFRE has designed a Risk Management System (SGR) based on the integrated management of each and every one of the entity's business processes, and on the adequacy of the risk level to the established strategic objectives. The different types of risks have been grouped under four areas, or categories, as detailed below:

- Operational Risks Includes 22 types of risks grouped under the following areas: actuarial, legal, technology, staff, collaborators, procedures, reporting, fraud and tangible assets.
- Financial Risks Includes interest rate, liquidity, currency, investment and credit risks.
- Insurance Activity Risks It groups, separately for Life and Non Life, risks arising from inadequacy of premiums, technical provisions and reinsurance.
- Strategic and Corporate Governance Risks Includes the corporate ethics and corporate governance risks, and risks on organisational structure, alliances, mergers and acquisitions, regulatory and, lastly, market and competition risks.

#### Centralisation of the Risk Management System

The structure of SISTEMA MAPFRE is based on Units and Operating Companies having a high degree of autonomy in their management. The governance and management bodies of Sistema Mapfre approve the lines of action of the Units and Companies as regards risk management, and permanently supervise their risk exposures, through indicators and ratios. In addition, there are general action guidelines in order to mitigate risk exposure, such as maximum levels of equity investment or credit rating of reinsurers.

The Economic and Management Control Area, through the Risk Management, coordinates the activities related to the quantification of risks and, in particular, the implementation of capital models in the operating units, designed to comply with the future Solvency II requirements.

In general terms, decisions on the underwriting of insurable risks and reinsurance covers are highly decentralised in the Units. The aspects related to Operational Risk are supervised centrally, although their implementation and monitoring are delegated on the Units. The management of Strategic and Corporate Governance risks is highly centralised. Financial risks are managed centrally through the Investment General Management of Sistema Mapfre.

### Operational Risks

The identification and assessment of Operational Risks are carried out by means of the computer application Riskm@p, developed by MAPFRE, which prepares the entities' Risk Maps.

The proposed Risk Management System is based on a dynamic analysis by processes, in such a way that the managers of each area or department carry out an annual identification and assessment of the potential risks affecting the following processes: Product development, Underwriting, Claims / Benefits, Administrative Management, Marketing Activities, Human Resources, Commissions, Coinsurance / Reinsurance, Technical Provisions, Investments, IT Systems and Client Service.

### Financial Risks

As regards financial investments, MAPFRE's policy for mitigating its exposure to this type of risks is based on a prudent investment policy, which concentrates most of the portfolio in fixed income securities.

With respect to credit risk, MAPFRE's policy is based on prudence (issuer's solvency) and on the diversification of fixed income investments. Thus, the fixed income securities portfolio in Europe is divided, roughly, as to half in securities guaranteed by European Union States, and the other half in securities issued by corporations having high credit ratings (see in Note 6.4 the detail of the portfolio by issuer's credit rating).

Both for fixed income and equity investments, diversification criteria are applied by activity sectors and maximum risk limits by issuer.

Taking into account MAPFRE's international vocation and its expansion in the Latin American markets, there is a permanent exposure to the currency risk. This risk factor is partly mitigated by the diversification of business in different countries and the concentration of the more profitable and capital intensive transactions in countries with the US Dollar as official currency or whose domestic currency is highly correlated to the US Dollar (for example, the Mexican Peso).

### Insurance Activity Risks

The organisation of MAPFRE, based on Units and Companies specialising in various business lines, requires them to be highly autonomous in their business management, in particular in the underwriting of risks and tariff fixing, as well as the indemnities or provision of services in the case of occurrences. Premium adequacy is a particularly important element, and its determination is supported by reports from independent experts in the units or situations when circumstances make it thus advisable.

The handling of claim related benefits, as well as the adequacy of provisions, are basic principles of insurance activity. Technical provisions are estimated by the actuarial teams of the different Units and Companies, and their adequacy is ratified by reports from independent experts whenever required. The prevalence of the personal damages line in MAPFRE, with very short times for the settlement of claims, as well as the scant importance of insured long-tail risks, such as asbestos or professional liability, are elements mitigating this type of risk.

MAPFRE's presence in countries with greater possibilities of occurrence of catastrophes (earthquakes, hurricanes, etc.) requires special treatment of this type of risks, which, considering their frequency and intensity, may give rise to volatility in results or need of additional capitals. The Units and Companies operating in this type of risks, essentially MAPFRE AMÉRICA and MAPFRE RE, count on expert reports on catastrophe exposure, generally prepared by independent experts, which estimate the impact on insured assets in the event of occurrence of catastrophes. This information allows underwriting catastrophic risks as a function of each entity's financial capabilities and, if applicable, taking reinsurance covers that may limit their impact on equity. In this connection, it is important to highlight the contribution of MAPFRE RE, which provides Sistema Mapfre with its extensive experience in the catastrophic risk market.

In relation to reinsurance risk, MAPFRE's policy is to cede business to reinsurers with proven financial capacity (minimum A credit rating by Standard & Poor's).

### **Strategic and Corporate Governance Risks**

The ethical principles applied to corporate management have been a constant at MAPFRE and form part of its bylaws and of its day to day duty. In order to standardise this corporate culture and adapt it to the legal governance and transparency requirements in management, MAPFRE's Management Bodies have approved in 2005 a revised version of the Good Governance Code, initially implemented in 1999. The strict application of Good Corporate Governance principles is considered by MAPFRE as the most efficient way for mitigating this type of risks.

## **6.2. EXTERNAL AUDITORS' FEES**

The annual accounts of SISTEMA MAPFRE and the main companies forming part of it, for financial year 2005, have been audited by the firm Ernst & Young, except for those based in El Salvador, which were audited by KPMG. The fees accrued in favour of external Auditors in the said financial year for their account auditing services amount to € 3,497,306, of which € 3,477,386 correspond to the main auditors. In addition, there is an additional amount of € 468,898 in favour of the main auditor in the concept of audit related services and € 449,820 accrued for other complementary services provided by them, which figures are not considered to jeopardise the independence of auditors.

### 6.3. OTHER DETAILS RELATING TO THE BOARD OF DIRECTORS

The directors of MAPFRE MUTUALIDAD do not hold stakes in the capital of companies having the same, similar or complementary nature of activity to that of Mutualidad, nor carry out, either on their own account or on behalf of third parties, the same, similar or complementary activity to that of the Group companies' corporate object, with the following exceptions:

Director	Company	Number of shares/stocks	Office/Position

*AUDIT REPORT FOR THE 2005  
CONSOLIDATED  
ANNUAL ACCOUNTS*

**AUDIT REPORT ON THE CONSOLIDATED ANNUAL ACCOUNTS**

Translation of a report and annual accounts originally issued in Spanish. In the event of discrepancy, the Spanish-language version prevails (See Note 7)

To the policy-holders of  
**MAPFRE MUTUALIDAD de Seguros y Reaseguros a Prima Fija**

1. We have audited the consolidated annual accounts of MAPFRE MUTUALIDAD de Seguros y Reaseguros a Prima Fija (the Parent Company) and its subsidiaries (the Group), which comprise the consolidated balance sheet at December 31, 2005, the consolidated income statement, consolidated cash flow statement and consolidated statement of changes in equity and the notes to the consolidated annual accounts for the year then ended, the preparation of which is the responsibility of the Parent Company's directors. Our responsibility is to express an opinion on the aforementioned consolidated annual accounts taken as a whole, based upon work performed in accordance with auditing standards generally accepted in Spain, which require the examination, through the performance of selective tests, of the evidence supporting the annual accounts, and the evaluation of their presentation, of the accounting principles applied, and of the estimates made.

2. The accompanying 2005 consolidated annual accounts are the first ones which the Group has prepared by applying the international financial reporting standards adopted by the European Union (IFRS-EU), which in general require that comparative information be included in the annual accounts presented. Thus, in accordance with mercantile law, for comparative purposes the Parent Company's directors have included for each of the captions included in the consolidated balance sheet, consolidated income statement, consolidated cash flow statement, consolidated statement of changes in equity and the notes to the consolidated annual accounts, in addition to the figures of 2005, those of 2004, which have been obtained by applying IFRS-EU in effect at December 31, 2005. Consequently, the 2004 figures differ from those set forth in the approved consolidated 2004 annual accounts which were prepared in keeping with the accounting principles and criteria in effect at the time. The principal differences arising as a result of applying IFRS-EU to consolidated equity at January 1 and December 31, 2004 and 2004 consolidated income statement of the Group are set forth in Note 2.1 to the accompanying consolidated annual accounts. Our opinion refers only to the consolidated annual accounts for 2005. On February 9, 2005 we issued our audit report on the 2004 consolidated annual accounts prepared in conformity with accounting principles and criteria in effect said year, in which we expressed an unqualified opinion.

3. The Parent Company and some of its subsidiaries have performed significant transactions with other MAPFRE SYSTEM companies. Information about these transactions is given in the Note 5.23 to the accompanying consolidated annual accounts.

4. In our opinion, the accompanying 2005 consolidated annual accounts give a true and fair view, in all material respects of the equity and financial position of MAPFRE MUTUALIDAD de Seguros y Reaseguros a Prima Fija and its subsidiaries at December 31, 2005 and the consolidated results of its operations, consolidated cash flow and changes in consolidated equity for the year then ended and contain the required information necessary for their adequate interpretation and comprehension, in conformity with the international financial reporting standards adopted by the European Union which are consistent with those applied to the figures and information corresponding to 2004 consolidated annual accounts which have been included in the 2005 annual accounts for comparative purposes.

5. The accompanying consolidated management report for the year ended December 31, 2005 contains such explanations as the Parent Company's directors consider appropriate concerning the situation of MAPFRE MUTUALIDAD de Seguros y Reaseguros a Prima Fija and its subsidiaries, the evolution of their business and other matters, and is not an integral part of the consolidated annual accounts. We have checked that the accounting information included in the consolidated management report mentioned above agrees with the consolidated annual accounts for the year ended December 31, 2005. Our work as auditors is limited to verifying the consolidated management report in accordance with the scope mentioned in this paragraph, and does not include the review of information other than that obtained from the accounting records of the Parent Company and the companies comprising its Group.

ERNST & YOUNG, S.L.
