

Initiatives on reducing greenhouse gas emissions

The initiatives for the Group's investment portfolio are in line with the framework of the Net Zero Asset Owner Alliance

Sub-portfolio emission Target

Engagement Target

Climate Solution Investment Target

MAPFRE Group's Objectives

Reduce greenhouse gas emissions in the investment portfolios

2030

- > **TonCO₂e/millón € invested:** 143% (2022 baseline).
- > Variable income and corporate fixed income (**Scopes 1 and 2 for each asset type**).

2050

- > **NET ZERO.**

Climate change commitments of the portfolio companies that emit large amounts of greenhouse gasses

2030

- > **Dialog with at least the top 20 CO₂ emitters** in the investment portfolio's corporate bonds and publicly traded equities.
- > Participation in the **NZAOA** working groups.

Decarbonization financing mechanism

2030

- > **Increase investment in solutions** that promote the transition to a low-carbon economy.
- > Form part of the **Alliance working group on climate transition.**
